RE: **REQUEST FOR PROPOSAL**
PROFESSIONAL DESIGN SERVICES
ARCHITECTURAL SERVICES NEW ROOFS
FIRE HEADQUARTERS, FIRE STATION NO.2,
MUNICIPAL BUILDING

Mayor Parisi, Council President Casalino and Council Members:

By letter dated February 3, 2020, I requested proposals from five architectural firms to provide Professional Design Services for New Roofs for Fire Headquarters, Fire Station No.2, and the Municipal Building. Those firms responded to the Township's Request for Qualifications. Of the five only three submitted a proposal: Herbst Musciano of Boonton, New Jersey, Netta Architects of Mountainside, New Jersey, and Settembrino Architects of Red Bank, New Jersey. PS&S of Warren, New Jersey and Arcari + Iovino Architects PC of Little Ferry, New Jersey did not respond. A copy of the RFP and the responses of Herbst Musciano, Netta Architects and Settembrino Architects are enclosed.

Based on the review of the proposals, all three firms were responsive to the proposal. However, the fees of Herbst Musciano are much lower than those of Netta Architects and Settembrino Architects: \$45,636.00, \$70,000.00 and \$79,500.00 respectively. Consequently, I recommend a Professional Services Contract be awarded to the firm of Herbst Musciano, 611 Main Street, Second Floor, Boonton, New Jersey 07005 to provide professional architectural and engineering services in accordance with their proposal dated February 19, 2020 for a fee not to exceed \$45,636.00. They provided architectural services for West Orange on other projects, and their work is very good.

Very truly yours,
Leonard R. Lepore

Invoices - CME Associates (CME) will submit invoices to Client monthly and a final invoice upon completion of services. Payment is due upon presentation of invoice and is past due thirty days from invoice date. Client agrees to pay a finance charge of one and one-half percent per month, or the maximum rate allowed by law, on past due accounts. In the event that the invoice is not paid voluntarily and promptly, and must therefore be referred to an attorney or agency for collection, the Client agrees to pay a collection fee equal to the actual attorney or agency collection fee incurred by CME. Overtime rates are applicable after eight hours Monday through Friday, and all day Saturday and Sunday, and charged at one and one-half times the quoted rate. Holidays are charged at two times the quoted rate. Expenses incurred for reproduction, postage handling, photographs and for services including subconsultants equipment and facilities not furnished by CME are charged to the Client at cost plus fifteen percent. Automobile travel may be charged at the current rate per mile allowed by the Internal Revenue Service.

Standard of Care - Services performed by CME under this Agreement will be conducted in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing under similar conditions. NO OTHER WARRANTY, EXPRESSED OR IMPLIED, IS MADE.

Contaminated Material - It is understood that CME is not, and has no responsibility as a handler, generator, operator, treater or storer, transporter or disposer of hazardous or toxic substances found or identified at any site. Client shall undertake or arrange for, either directly or indirectly through other contractors, the handling, removal, treatment, storage, transportation and disposal of hazardous substances or constituents found or identified at any site.

Utilities - In the execution of the work, CME will take all reasonable precautions to avoid damage or injury to subterranean structures or utilities. The Client agrees to hold CME harmless for any damages to subterranean structures which are not called to CME's attention and/or not correctly shown on the plans furnished.

Right of Entry/Worksite - Client will provide for right of entry for CME personnel and equipment necessary to complete the work. While CME will take all reasonable precautions to minimize any damage to the property it is understood by Client that in the normal course of some damage may occur, the correction of which is not part of this agreement.

Client shall furnish or cause to be furnished to CME all documents and information known to Client that relate to the identity, location, quantity, nature or characteristics of any hazardous or toxic substances at, on or under the site. In addition, Client will furnish or cause to be furnished such other information on surface and subsurface site conditions required by CME for proper performance of its services. CME shall be entitled to rely on Client provided documents and information in performing the services required under this Agreement; however, CME assumes no responsibility or liability for their accuracy or completeness.

CME will not direct, supervise or control the work of contractors or their subcontractors. CME services will not include a review or evaluation of the contractor's (or subcontractor's) safety measures.

CME shall be responsible only for its activities and that of its employees on any site. Neither the professional activities nor the presence of CME or its employees or subcontractors on a site shall imply that CME controls the operations of others, nor shall this be construed to be an acceptance by CME of any responsibility for jobsite safety.

Indemnification - To the full extent permitted by law, Client shall indemnify, defend and hold harmless CME and its subcontractors, consultants, agents, officers, directors and employees (herein collectively referred to as Engineer) from and against all claims, damages, losses and expenses, whether direct, indirect or consequential, including but not limited to fees and charges of attorneys and court and arbitration costs, arising out of or resulting from the services of work of Engineer or any claims against Engineer arising from the acts, omissions or work of others, unless it is proven in a court of competent jurisdiction that the Engineer is guilty of negligence or willful misconduct in connection with the services and such negligence or willful misconduct was the sole cause of the damages, claims and liabilities.

Client agrees to indemnify and hold harmless Engineer from and against all claims, damages, losses and expenses, direct or indirect, and consequential damages, including but not limited to fees and charges of attorneys and court and arbitration costs, brought by any person or entity, or claims against Engineer which arise out of, are related to, or are based upon, the actual or threatened dispersal, discharge, escape, release or saturation or smoke, vapors, soot, fumes, acids, alkalis, toxic chemical, radioactive materials, liquids, gases or any other material, upon, in or into the surface or subsurface soil; water or watercourse; objects; or any tangible or intangible matter.

To the fullest extent permitted by law, such indemnification shall apply regardless of the fault, negligence, breach of warranty or contract or strict liability of Engineer. This indemnification shall not apply to claims, damages, losses or expenses which are determined by a court of competent jurisdiction to be the sole result of negligence or willful misconduct by the Engineer of obligations under this Agreement.

Limitations of Liability - CME's total liability to Client for any and all injuries, claims, losses, expenses or damages whatsoever arising out of, or in any way related to, this Agreement from any cause or causes, including but not limited to CME's negligence, errors, omissions, strict liability, breach of contract or breach of warranty, shall not exceed the total contract amount for the services provided by CME or \$50,000, whichever is less.

In no event shall CME be liable for consequential damages, including, without limitation, loss of use or loss of profits, incurred by Client or their subsidiaries or successors, regardless of whether such claim is based upon alleged breach of contract, willful misconduct, or negligent act or omission.

Professional services rendered for a Client shall be provided for that Client. The Client is responsible for the proper operation and use of the subject facilities and/or report and nothing herein shall provide any rights to any third party. The Client, in authorizing CME to proceed, acknowledges that the professional responsibility is limited.

Termination - This Agreement may be terminated by either party upon fourteen (14) days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof. Such termination shall not be effective if that substantial failure has been remedied before expiration of the period specified in the written notice. In the event of termination, CME shall be paid for services performed to the termination notice date plus reasonable termination expenses.

In the event of termination, or suspension for more than three (3) months, prior to completion of all work contemplated by this Agreement, CME may complete such analyses and records as are necessary to complete its files and may also complete a report on the services performed to the date of notice of termination or suspension. The expenses of termination or suspension shall include all direct costs of CME in completing such analyses, records and reports.

Assigns - The Client may not delegate, assign, subcontract or transfer his duties or interests in this Agreement without the written consent of CME.

This agreement shall not create any rights or benefits to parties other than the Client and CME, except such other rights as may be specifically called for herein.

AGREEMENT FOR MUNICIPAL PLANNING DIRECTOR

THIS AGREEMENT made and entered into on this ____ day of February, 2020 by and between the **TOWNSHIP OF WEST ORANGE**, a municipal corporation of the State of New Jersey, located at Town Hall, 66 Main Street, West Orange, County of Essex and State of New Jersey, hereinafter called the "TOWNSHIP", party of the first part, and **PHILLIPS PREISS GRYGIEL LEHENY HUGHES, LLC.**, located at 33-41 Newark Street, Third Floor, Suite D, Hoboken, County of Hudson and State of New Jersey, hereinafter referred to as "CONSULTANT," party of the second part.

WITNESSETH THAT:

WHEREAS, the Governing Body of the TOWNSHIP has determined that it is in the best interests of the TOWNSHIP to retain the services of CONSULTANT to provide municipal planning services;

NOW, THEREFORE, in consideration of the mutual promises, terms and conditions hereinafter set forth, the parties hereto agree as follows:

1. CONSULTANT will review applications made to West Orange's Planning Board and Zoning Board of Adjustment for site plan, subdivision and/or variance approval. The scope of work for each of these development reviews will include the following:

- Review of filed application materials to determine whether the application can be deemed complete for hearing by the Planning Board, Zoning Board of Adjustment and/or Site Plan Review Advisory Board, and if any submission waivers are warranted;
- Preparation of a completeness review memorandum;
- Attendance at Site Plan Review Advisory Board meetings;
- Review of filed application materials to determine compliance with all applicable Zoning Ordinance requirements and other development regulations;
- Analysis of all requested variances and/or exceptions from site plan or subdivision regulations;

- Review of site plan, architectural plans and/or subdivision plat to identify any zoning or planning issues;
- A site visit to the subject property and surrounding area;
- Discussion with Township of West Orange staff and other consultants, if necessary;
- Preparation of an application review letter, if necessary;
- Attendance at evening meetings of the Planning Board and Zoning Board of Adjustment when an application for which a review letter was prepared is on the board's agenda.

The above work other than site visits and meetings will be conducted in CONSULTANT's office. It is assumed that application materials will be mailed to CONSULTANT by Township staff, although CONSULTANT will be able to pick up materials in West Orange if a quick turnaround of a review letter is necessary. A representative of CONSULTANT will also attend meetings in West Orange to meet with Township staff, other consultants and/or development applicants, as needed.

The review of development applications can be paid for through escrows provided by development applicants, consistent with state law and Section 25-55 of the West Orange Zoning Ordinance. CONSULTANT will submit invoices to the Township for each development application in order to manage the appropriate funding source for our service.

It is anticipated there will be a limited amount of billing for general planning services not related to a specific application, which would be billed directly to the Township and would not be payable through applicant escrows. If additional work, over and above that specified in the Scope of Services, or that agreed to under this Agreement, is requested by the Client, such work shall be performed by CONSULTANT at the hourly billing rates specified in paragraph 7 of this Agreement or any increases to the hourly billing rates as set forth in paragraph 7. Such additional services shall only be performed following approval from the Township Council.

Paul Grygiel, AICP, PP shall make himself available as needed on a flat fee basis as set forth herein.

4. CONSULTANT is hereby placed on notice that no Department Head, individual member of the Governing Body, or any agent, servant or employee of the TOWNSHIP possesses any lawful authority to: (a) engage the rendition of services or the performance of work; (b) authorize the continuation of services or work beyond the amount specifically

8. CONSULTANT agrees, subject to the provisions herein, to indemnify and hold the Client harmless from any damage, liability or cost to the extent caused solely by CONSULTANT's negligent acts, errors or omissions in the performance of professional services under this Agreement. WITNESSETH THAT:

WHEREAS, The Township of West Orange is a Faulkner Act Mayor-Council Form of government with a Law Department established by Ordinance, the Director of which is the Township Attorney; and

WHEREAS, the Township Attorney, with the Mayor's approval, has requested the appointment of COUNSEL to the position of Assistant Township Attorney subject to the approval of the Township Council, which has approved of COUNSEL'S appointment; and

WHEREAS, *N.J.S.A. 40A:9-139*, requires that the appointment of municipal attorneys be limited to a term of one year, and *N.J.S.A. 40A:11-15*, provides that professional services contracts shall not exceed twelve months; and

WHEREAS, the TOWNSHIP provides for payment of the Assistant Township Attorney at the rate of \$ 31,500.00 per year, as set currently by the Township's salary ordinance, which includes payment for COUNSEL's representation of the TOWNSHIP in its general legal matters, but not for litigation, arbitrated or mediated matters, in which the Township has an adversary, and which are to be billed separately and by the hour at the rate provided in the TOWNSHIP's Attorney Billing Guidelines;

NOW, THEREFORE, in consideration of the mutual promises, terms and conditions hereinafter set forth, the parties hereto agree as follows:

1. **Scope of Services.** The TOWNSHIP hereby retains the services of Kenneth W. The Scope of Services shall include matters of litigation, arbitration or mediation in which the TOWNSHIP has an adversary, but in all such matters, COUNSEL shall be paid at an hourly rate separate and apart from, and in addition to, the salary paid for representation of the TOWNSHIP in its general legal matters. The Assistant Township Attorney shall have the

2. **Salary and Hourly Rate.** For representation of the Township in its general legal matters, COUNSEL shall be paid an annual retainer in the amount as set forth in the current salary ordinance for the TOWNSHIP, currently \$31,500.00 per year, to be paid in twelve equal monthly installments, each in the amount of \$2,625.00, each installment due on the 1st day of the month. For matters of litigation, arbitration or mediation in which COUNSEL performs legal services for the TOWNSHIP in an adversarial setting, COUNSEL shall be paid at the hourly rate provided in the TOWNSHIP's Attorney Billing Guidelines for those legal services reasonably necessary to provide competent and adequate representation of the TOWNSHIP's interests, payment for all such services to be subject to governing body approval.

For purposes of this Agreement, "block billing" shall refer to the practice of grouping together multiple activities or tasks under one (1) time entry.

4. **Reimbursement for Expenses.** COUNSEL may seek reimbursement for actual expenses reasonably incurred, such as postage, copying, mileage, meals, parking, court reporters or delivery of documents in accordance with the TOWNSHIP's Billing Guidelines. The amounts for such expenses shall be itemized on the monthly invoices provided to the TOWNSHIP.

5. **Administrative Work, Secretarial Services and Multiple Attorney Billing.**

COUNSEL shall not bill the TOWNSHIP for office overhead expenses such as secretarial or administrative support staff and billing for multiple attorneys for internal conferences or attendance at outside meetings and events should be discouraged and minimized.

6. **Billing for Travel Time.** COUNSEL may bill the TOWNSHIP for travel time to and from any destinations in connection with matters of litigation, arbitration or mediation which COUNSEL is handling for the TOWNSHIP at one-half of the normal hourly rate for such matters.

7. **Coordination of Representation.** COUNSEL shall coordinate and regularly communicate with the appropriate TOWNSHIP officials, department heads, TOWNSHIP employees and any others involved, regarding the status of various legal matters and the need for information and cooperation on their part.

8. **Professional Liability Coverage Required.** At all times during COUNSEL's retention by the TOWNSHIP, COUNSEL shall comply with the applicable New Jersey Court Rules requirements for professional liability coverage. COUNSEL shall maintain in good standing one or more policies of lawyers' professional liability insurance which shall insure COUNSEL's firm against liability imposed upon it by law for damages resulting from any claim made against it by its clients arising out of the performance of professional services by attorneys employed by the firm in their capacities as attorneys.

9. **Township Representations.** COUNSEL is hereby placed on notice that no Department Head, individual member of the Governing Body, or any agent, servant or employee of the TOWNSHIP possesses any lawful authority to: (a) engage on behalf of the Township the provision of legal services; (b) authorize the continuation of services or work beyond the amount specifically approved in the Resolution and Certificate of Funds; or (c) represent that future funds will be available as compensation for current services. Any such acts shall be deemed ultra vires and beyond the scope of any authority that individual may possess.

10. **Applicability of Laws.** The provisions of this agreement are subject to the limitations of provisions of the New Jersey Tort Claim Act, N.J.S.A. 59:2-1 et seq., and the New Jersey Contractual Liability Act, N.J.S.A. 59:13-1 et seq.

11. **Choice of Law.** This agreement shall be governed by the laws of the State of New Jersey without regard to principles of conflict of laws. All contract claims under this agreement shall be subject to and governed by the provisions of the New Jersey Contractual Liability Act (N.J.S.A. 59:13-1 et seq.).

Introduction: March 3, 2020

Adopted: March 24, 2020

Legislative History

The West Orange Township Council has found value in having a Council liaison designated and appointed to some of the various advisory boards, committees and commissions operating within the Township, providing lines of communication between the citizen volunteers, Township professionals, interested residents participating on and with those bodies and the Township's governing body. Through Council liaisons the Council as a whole is better able to educate itself about and follow the work of such bodies through regular reporting by liaisons to the Council as a whole. The enabling statute for Historic Preservation Commissions in the State of New Jersey has specific and detailed requirements regarding voting membership which precludes a Council liaison from being a voting member of a Historic Preservation Commission and this Ordinance provides that the Council liaison shall be an ex officio non-voting member of the Commission, appointed and designated by vote of the Council at its annual re-organization meeting as has been the custom with respect to other Council liaison positions.

CONSULTANT ORGANIZATIONAL CHART

Built upon over seventy-five years of combined team experience, Settembrino Architects is the leader in providing our Public Sector clients cost-effective and innovative design services and solutions throughout the Garden State and into parts of New York. Founded by Principal and Middletown Mayor Kevin Settembrino, Settembrino Architects is a full-service Architecture & Interior Design firm located in downtown Red Bank, New Jersey.

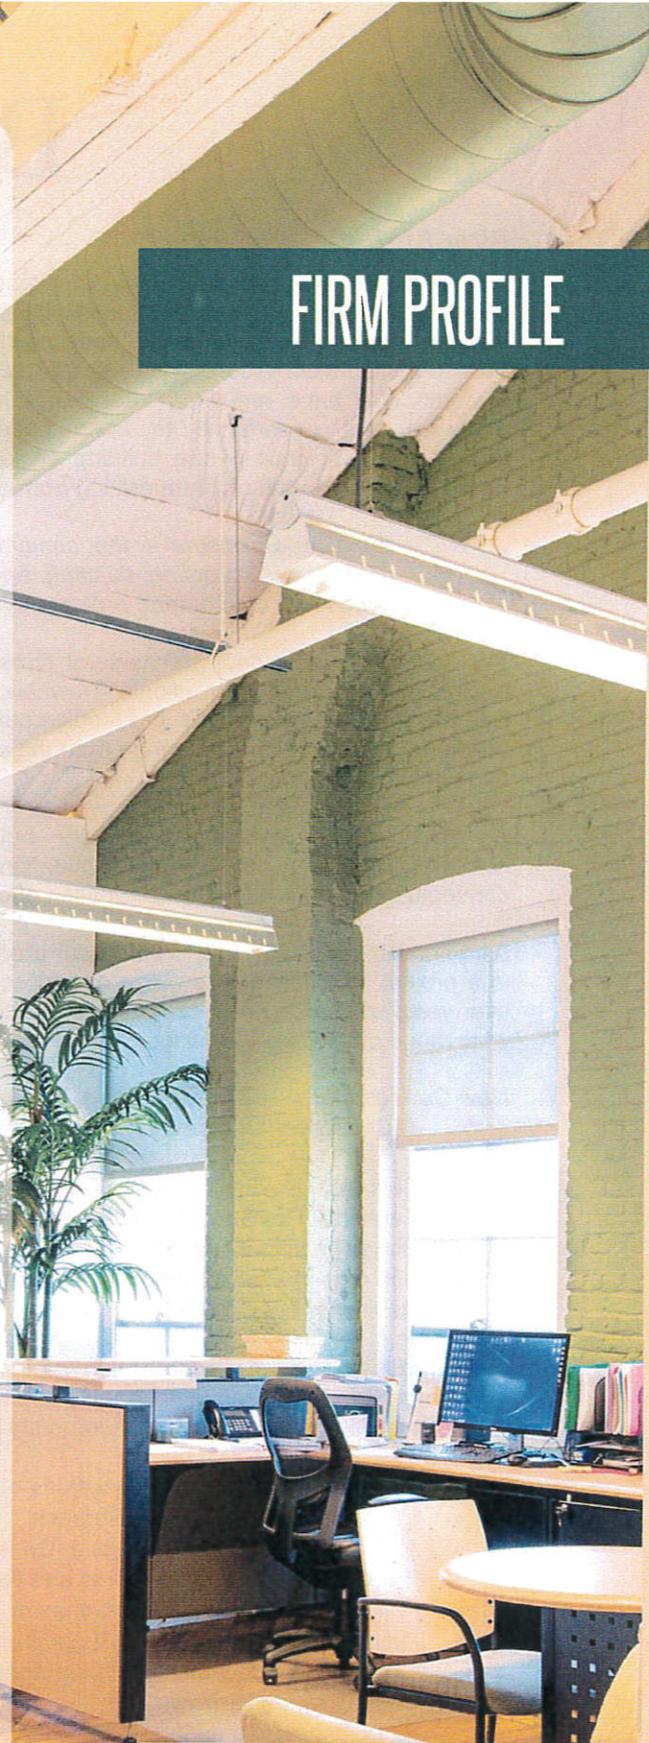

Our capabilities, drive and talent far exceed what one might expect from a "typical" Architectural firm, as we encompass the ability and the aspiration to **do more and be more** than the average competition. As a vehicle in our success, we continue to reinvest in industry technology; using the most current CAD and design software as well as the most advanced and capable hardware. Online project software and data management allows Settembrino Architects time saving solutions in sending and receiving vital project information such as drawings, documentation, letters and sketches. **We stay up to date to effortlessly keep our projects up to date as well.** Through established remote access, our team can manage and work on projects anywhere, even on site.

We have an **award-winning** focus on sustainable design practices and smart buildings. The County of Cape May hired Settembrino Architects as their LEED Consultant for their first LEED Silver Certified Building. Our Senior Staff are all **LEED Accredited Professionals** and thought leaders in advancing the relationship between building and environment in addition to using renewable resources versus non-renewable ones.

Settembrino Architects has been recognized numerous times for "**Excellence in Architecture**" on several projects and project types. Additionally, our firm has received the **2012 AIA Design Award Citation** for our Memorial School Solar Courtyard designed for the Union Beach Board of Education. To seamlessly integrate solar panels into existing architecture, our team has developed innovative concepts incorporating the use of both science and nature. Amongst these strategies is the utilization of Solar Trees. These structures essentially marry some of the most advanced technology of our time to our need for an aesthetically pleasing environment.

We stand out because our clients come first. Because we listen to their needs, draw from the right resources and deliver consistent outcomes, our clients welcome results which exceed expectation.

1. Appropriateness & Quality of Firm's Experience

Since 1987, Building Evaluations, Inc. has developed over 5,000 estimates for more than 750 local, national and international clients. Our team of highly experienced construction management and design professionals has expertise that spans the full range of disciplines, including architectural, structural, civil, mechanical, and electrical engineering. Utilizing our vast experience in the industry, Building Evaluations, inc. can develop realistic cost estimates at any stage during the design and construction process. We pride ourselves on working within the time schedule of your design team and honoring your established deadlines. Every estimate we produce is custom tailored to your needs and the individual requirements of your project.

Our clients include architects, construction managers, owners, engineers, contractors and appraisers across the country. As one of the nation's leading estimating services, Building Evaluations, Inc. utilizes state-of-the-art technologies to deliver accurate and up-to-date cost estimates at a cost effective price. We're pre-qualified with most local and federal government agencies and are a certified small business enterprise (SBE).

2. Proposed Methodology & Response Time

Building Evaluations, Inc. has developed a four-step process to ensure that your project is always utilizing the most up-to-date and reliable construction cost projections possible. With more than 40 years in the industry, Building Evaluations, Inc. has the expertise and experience to help bring your project to completion-within budget, on time and on target!

STEP #1 – THE CONCEPTUAL ESTIMATE:

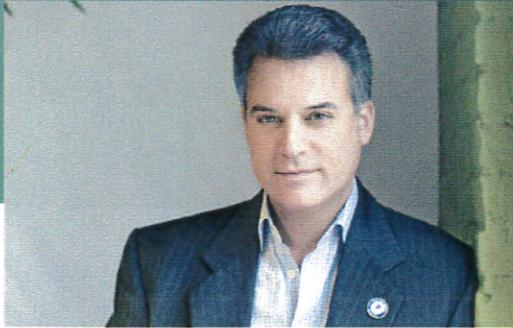

The start of the process is the Conceptual Estimate. Because very little concrete information is available at the start, Building Evaluations, Inc. has developed a questionnaire to assist in establishing the early data for the project. Using this input, we determine the type, size, design features, and quality of the projected building systems. Labor and material costs are adjusted according to the actual location of the project, and an appropriate escalation factor is added to the estimate based on the projected bid date. The conceptual estimate takes approximately one to two weeks to complete depending on the complexity of the project.

STEP #2 – THE SCHEMATIC ESTIMATE:

Early in the design phase, we develop the Schematic Estimate, based on rough sketches and detailed discussions with the design team. At this point various design alternates may be considered in order to achieve the best value for the construction dollar. Developing accurate cost estimates for each design scheme is paramount in determining the final direction for the project. Each building system is carefully analyzed to determine the quantities and materials required for its construction and installation. The Schematic Estimate takes approximately one to two weeks to complete depending on the complexity of the project.

BOROUGH OF SEA BRIGHT
MUNICIPAL COMPLEX + OEM BUILDING

PROJECT summary

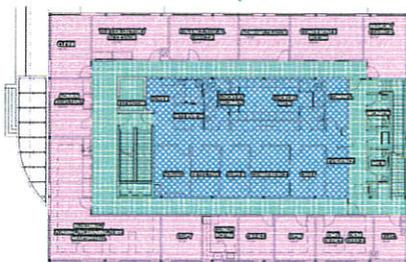

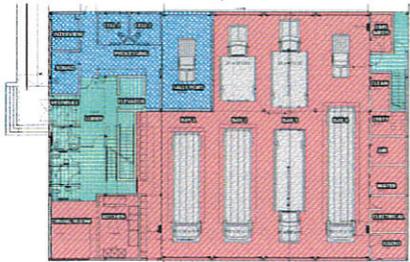

The Sea Bright Emergency Response Center is intended to replace the existing Fire Department, Police Station, Administration and EMS, which were severely damaged by Superstorm Sandy. The existing buildings are located at 1099 Ocean Avenue and lie just inland of the beach. It is on this site that the new center will be constructed, containing enough space for the Fire Station, Police Department, EMS Services and an Administration Area for a total of 11,400 gross square feet.

In the case of the Fire House, all vehicles and their support equipment are located at the first floor level with direct access to the street. The Sally Port + Processing Center are the Police component located at street level, while the EMS component has parking for an ambulance and a treatment space. An entrance foyer completes the accommodation assigned to the ground floor. The second floor level is divided into three distinct zones. Administrative functions occur along the east and west edges with the larger communal space located between the two. The spaces are arranged so that they can be shared by the Police and Fire Departments without compromising the security requirements of the Police Department.

The resultant building form is a simple two story box of similar scale to the surrounding commercial buildings. The building's external expression borrows elements from local Sea Bright architecture. Openings in walls are of the punched type with white trim. The proposed building uses three elements and colors to breakdown it's scale and box like form.

Settembrino Architects designed the New Police Headquarters for the Township of Clark. The structure is to be constructed behind the existing Police Headquarters. It is the Borough's intention to keep the existing Police facility functioning while the new Headquarters is constructed. On its completion the existing building will be demolished and the area developed as a parking lot to serve the new building. This arrangement effectively determines the location and footprint of the new building – i.e. at the rear (south) end of the existing building with its public face towards the north overlooking Westfield Avenue, and its more functional aspects (Sally Port/Police Parking) occurring at the south end of the building.

BOROUGH OF HIGHLANDS

New Municipal Complex

PROJECT Summary

The construction of a new Municipal Complex for the Borough of Highlands was deemed necessary due to damage to its existing facilities caused by Hurricane Sandy. Following an initial FEMA review and site selection evaluation, the Borough hired Settembrino Architects to design a new, multi-level, Borough Hall Building with an approximate 15,000 square foot building footprint. The new site for the structure is inland and above the flood zone, helping to protect it from future storm damage.

The new Highlands Municipal Complex will house several uses including the Police Headquarters, Municipal Court and the Administrative Offices. Settembrino Architects designed the conceptual site plan, as well as an initial conceptual rendering, with the intent of using the corner of Route 36 and Miller Street as a landmark entrance for the new Complex. The large, open foyer will welcome visitors with a flood of natural daylight from large skylights above. The architecture directly reflects the downtown shore atmosphere of the Highlands.

BOROUGH OF EATONTOWN

New

Wolcott Park Comfort Station

PROJECT BACKGROUND +
SCOPE of work

PROJECT summary

The Borough of Eatontown had received a Municipal Open Space Grant to complete this project. The existing facilities were contained in three buildings, the smallest of which housed an existing electrical room serving the buildings and sections of the park lighting and sprinkler system. It also contained some unused toilets. The second largest building contained the existing bathrooms together with a mechanical space housing electrical and water heating equipment. The third and largest building was primarily used to store park recreation and maintenance equipment.

Settembrino Architects was hired to combine the functions of the existing buildings into one new building on the same site, containing barrier free toilet rooms in addition to recreation and park storage. The design arranged these functions in a simple linear building measuring 17' wide by 63' long, covered with a steep pitched roof. The storage spaces occur at both ends of the building with access from gable end entrances. The bathrooms are located between these two spaces and are accessed off of a covered porch overlooking an existing pathway which leads into the main body of the park. Being that security is typically an issue with these types of facilities, natural lighting of the spaces is limited to a narrow strip of glazing just under the eaves of the roof. In the bathroom this system is supplemented with skylights. The intention was to construct a building using the familiar wood stud system clad in lap siding on the long sides and a metal panel system on the gable ends. The change in materials is an expression of the more utilitarian nature of the two ends of the building. The roof is composed of fiberglass shingles over simple trusses. Construction began in the Spring of 2015 and has since been completed.

BOROUGH OF EATONTOWN | Community Center Annex *historic* renovation

PROJECT BACKGROUND +
SCOPE of work

PROJECT *summary*

As the Architect of Record for the Borough of Eatontown, Settembrino Architects has completed the historic renovation of the Eatontown Community Center Annex. Built in the 1920's, this former residential building is now utilized as a day care center. With a project budget of \$200,000 from the Monmouth County Community Development Block Grant program, Settembrino Architects worked with the Borough Administration to complete interior and exterior renovations on the building, including the rebuilding of the front porch and entrance. Additionally, environmental engineers and abatement contractors were coordinated to remove any asbestos and lead-based paint from the affected project areas before the start of any construction work. The project was completed on time and on budget in August 2010.

The I. Hathaway House, currently used as the Eatontown Community Center Annex, was renovated as part of a Monmouth County Community Development Block Grant. An application was filed with NJ DEP Historic Preservation Office (SHPO) for the modifications to the building exterior. The existing exterior cladding was removed and was replaced with maintenance free cementitious siding. The floor and stair of the covered front porch was rebuilt with maintenance free composite deck flooring and cementitious siding at walls. Additionally, all decorative trim was scraped/repaired and painted.

After continued evidence of dangerous concrete spalling on site cast concrete, the NYCSCA hired Settembrino Architects to investigate and solve the issue. It was believed the spalling was coming from cast concrete columns and beams over the public sidewalk as well as the adjacent park property. PS 126M in Manhattan, a four-story cast concrete school building had exposed columns and beams which had begun to spall pieces of concrete which then continued down the sidewalk and into the park below. After immediate sidewalk bridges were erected to protect the public, the team at Settembrino Architects began a detailed forensic identification. First the problem area needed to be located, then the systemic damage would need to be repaired and the exterior building would need to be returned to its original design aesthetic.

With a combination of carefully selected masonry probe locations, and a thorough Water Ingress Assessment complete with spray and infrared testing, the location of the water infiltration was determined. Settembrino Architects discovered this infiltration had led to the expansion of the steel rebar within the concrete columns and beams. Systemic solutions included the removal and replacement of site cast concrete over all of the building's exterior. This included exposed portions of columns and beams, parapet brick veneer rebuilding and waterproofing and the addition of weep hole above all spandrel beam locations. Select roof areas needed replacement and an application of an elastomeric coating was applied to all areas of exposed concrete to protect the new site cast concrete. The project was completed in October 2009.

NYSCSA once again hired Settembrino Architects to investigate and solve the problems of a 40 year old school building with concrete spalling problems. The school had systemic exterior roof and veneer issues, concrete spalling and settlement problems and water infiltration concerns. Settembrino Architects, after careful investigation, began the management of the design for a complete Exterior Building Modernization. This modernization included a new roof, HVAC equipment, windows, window guards, select masonry veneer replacement, exterior concrete walk replacement and a new barrier free exterior entrance ramp. Additional interior upgrades included a media center renovation. This project was completed on-time and on-budget in September 2012.

The Absecon Board of Education hired Settembrino Architects to prepare an RFP and execute complete Construction Administration for a Solar Power Purchase Agreement (PPA) project for an 860kW Ground Mount Solar Array. The completed project is now generating approximately 90% of annual energy needed in the district and will save taxpayers over \$1 million during the fifteen

(15) year lease period. The project was executed by NJR, a division of New Jersey Natural Gas Company, with no capital outlay from the Absecon Board of Education and is providing cash savings every year. An educational kiosk at each school was included in the project as well as an online webpage to track real time energy savings.

PROJECT *approach*

expedite the final code review process at 100% construction document completion. These careful documentation, estimating and planning methods shall minimize change orders during construction.

ADD + DEDUCT ALTERNATES

Our team, together with the **Township of West Orange** administration, will recommend both add & deduct alternates to be placed in the bid documents. This shall provide the **Township of West Orange** with the flexibility to award some additional desired project components based on the proximity of the base bid to the prescribed estimate.

BID PACKAGING, BID+ AWARD

Settembrino Architects will recommend bid packaging and bid procedures to provide the most competitive pricing for the **Township of West Orange**. Projects shall either be bundled single lump sum or on a “per discipline” delivery process based on the bidding climate at the time. Additionally, Settembrino Architects will solicit quality contractors and conduct a pre-bid meeting. We will analyze bid results and provide recommendations for project award in coordination with the **Township**.

CONSTRUCTION ADMINISTRATION & BUDGET TRACKING

Kevin Settembrino, AIA, LEED AP, will be on site at least once a week, or more if required, to verify the construction progress, scope and quality match all of the contract documents. We shall review and approve shop drawings as well as all contractor application for payment. All budgets shall be tracked and reported with each application for payment submittal. This budget tracking will provide a monthly review of funds encumbered, remaining, and available contingencies. Biweekly construction meetings will be held on-site with the contractor and owner present. Meeting minutes will be recorded and distributed.

SUBSTANTIAL COMPLETION, CLOSEOUT + OCCUPANCY

Settembrino Architects will provide an intense effort to reach substantial completion as scheduled. We will prepare punch lists and review their completion as well. Settembrino Architects shall assist the contractor to achieve temporary Certificate of Occupancy as well as a Final Certificate of Occupancy. We shall ensure that all operations manuals and personnel training is completed prior to releasing the contractor from the project.

Legislative History

The Ordinance, which amends the Traffic Regulations of the Township, designates the two (2) intersections of Walker Road and Burnett Terrace as Multi Way Stops intersections with Stop signs on all intersecting streets. Due to the volume of traffic through these intersections, turning movements at each intersection and limited sight distance at the easterly intersection, the Township's Engineering Division determined that traffic needed to be regulated on all approaches to these intersections for the safe movement of traffic through them. Currently the intersections are regulated by Stop Signs but they are not Multi Way Stops Intersections.

RE: **AMENDMENT TO CHAPTER 7, TRAFFIC
MULTI WAY STOPS INTERSECTIONS**

Mayor Parisi, Council President Casalino and Council Members:

The attached Ordinance will designate the two (2) intersections of Burnett Terrace and Walker Road Multi Way Stops Intersections with Stop Signs on all approaches. I certify that this regulation is approved by me after investigation of the circumstances, and that it appears to be in the interest of safety and the expeditious movement of pedestrians and traffic. Based on this, I request this approval of these Multi Way Stop Intersections pursuant to N.J.S.A. 39:4-8(b). Due to the volume of traffic through these intersections, turning movements at each intersection and limited sight distance at the easterly intersection, the Township's Engineering Division determined that traffic needed to be regulated on all approaches to these intersections for the safe movement of traffic through them. Currently the intersections are regulated by Stop Signs but they are not Multi Way Stops Intersections.

I performed my investigation of this intersection by field inspection, manual traffic counts and accident investigations, and based on these findings I recommend these intersections be designated Multi Way Stops Intersections with Stop Signs on all approaches.

If you have any questions on this regulation, please call me.

Very truly yours,

LEGISLATIVE HISTORY

This Ordinance establishes a School Speed Limit of 15 MPH on Walker Road between Gregory Avenue and adjacent to the Gregory Elementary School. This School Speed Limit will be effective while children are going to and from school during opening and closing hours. The Speed Limit at other times is established by State Statute and it is 25 MPH.
