RESOLUTION

WHEREAS, on July 7, 2015, the Township of West Orange (the “Township”) filed a Declaratory Judgment Complaint in Superior Court, Law Division, pursuant to In re N.J.A.C. 5:96 and 5:97, 221 N.J. (2015) (Mount Laurel IV), seeking, among other things, a judicial declaration that its Housing Element and Fair Share Plan (hereinafter “Fair Share Plan”), as to be amended as necessary, satisfies its “fair share” of the regional need for low and moderate income housing pursuant to the “Mount Laurel doctrine”; and

WHEREAS, the Township simultaneously sought, and ultimately secured, a protective Order providing the Township with immunity from all exclusionary zoning lawsuits while it pursues approval of its Fair Share Plan; and

WHEREAS, the Trial Judge appointed Elizabeth McManus, PP, AICP, LEED AP, as the Special Court Master (hereinafter the “Court Master”), as is customary in Mount Laurel matters adjudicated in the courts; and

WHEREAS, with the assistance from the Court Master, the Township and Fair Share Housing Center (hereinafter “FSHC”) engaged in good faith negotiations which resulted in an amicable accord on the various substantive terms and conditions as set forth in the Settlement Agreement attached hereto as Exhibit A; and

WHEREAS, the Township was represented in these negotiations by the Township’s Affordable Housing Planner Shirley Bishop; and

WHEREAS, through the process, the Township and FSHC agreed upon the Township’s affordable housing obligations and the compliance techniques necessary for

the Township to satisfy its “fair share” of the regional need for low- and moderate-income housing; and

WHEREAS, the Township and FSHC also agreed to present the Settlement Agreement to the Trial Judge for approval at a duly-noticed Mount Laurel Fairness Hearing; and

WHEREAS, although there is a well-established policy favoring the settlement of all forms of litigation, the settlement of Mount Laurel litigation is particularly favored because (1) it avoids the expenditure of finite public resources; and (2) expedites the construction of safe, decent housing for the region’s low- and moderate-income households; and

WHEREAS, in light of the above, the Council finds that it is in the best interest of the Township to execute the attached Settlement Agreement with FSHC and to take the various other actions delineated below, which will ultimately result in approval of the Township’s Fair Share Plan which, in turn, will maintain the Township’s immunity from all Mount Laurel lawsuits for the ten-year period set forth in the New Jersey Fair Share Housing Act, N.J.S.A. 52:27D-301 to 329.

NOW, THEREFORE, BE IT RESOLVED BY THE TOWNSHIP COUNCIL OF THE TOWNSHIP OF WEST ORANGE that the Township Council hereby directs, authorizes and empowers the Mayor to execute the Settlement Agreement attached hereto as Exhibit “**A**,” and be it further

RESOLVED, that the Council hereby directs, authorizes and empowers the Township’s Counsel to (a) file the fully-executed Settlement Agreement with the Court

for review and approval at a duly-noticed Fairness Hearing, (b) take all actions reasonable and necessary to secure an Order approving the Settlement Agreement, and (c) work towards ultimately securing judicial approval of the Township's Fair Share Plan, after it is drafted, adopted by the Township Planning Board and endorsed by the Council; and be it further

RESOLVED, that all other appropriate Township officials are hereby directed, authorized and empowered to execute all documents and take all steps necessary and appropriate to effectuate the terms and purposes of this Resolution and the Settlement Agreement; and be it further

RESOLVED, that this Resolution shall be published and made available in the Clerk's office in accordance with applicable law.

Science & Technology

Dear Mr. Lepore:

1.0 INTRODUCTION

Paulus, Sokolowski & Sartor, LLC (PS&S) is pleased to present this proposal to provide Civil Engineering, Electrical Engineering and Surveying services associated with the Degnan Park Ball Field improvements located on Alisa Drive in the Township of West Orange, New Jersey. The site is situated at the end of Alisa Drive just south of the West Orange High School. The site is further identified on the West Orange tax maps as Block 154.19, Lot 6. The property is currently an existing grass baseball field with an asphalt parking lot, fencing and bleachers.

We understand from the Request for Proposal (RFP) dated February 4, 2020 and from the plans included in the RFP, that the Township of West Orange is proposing improvements to the Degnan Park Ball Field including installation of Turf Field for a new softball field, new scoreboard and new outfield fencing.

We further understand that the Township is seeking design and specifications for the artificial turf construction including excavation, grading, and underdrain installation. Furthermore, the new scoreboard will require installation of new electrical conduits, wiring and service connection. As per the RFP, the scope of work will also include a Bid Document phase and a Construction Administration phase.

We have prepared the following scope of basic services based upon the information provided and our knowledge of similar projects for this region of New Jersey.

2.0 SCOPE OF BASIC SERVICES

2.1 Surveying Services

Topographic & Utility Survey

PS&S survey crews will perform a topographic survey of the project area (limited to the area of the proposed artificial turf and adjacent vicinity) using a combination of drone aerial mapping technology and conventional on-ground survey methods. We will locate and provide elevations of all surface features within the project area including, but not limited to buildings, inlets, manholes, curbs, shrubs, trees, fences, guardrails, sidewalks, lights, signs and retaining walls. All information will be at a 1"=30' scale and will provide a one (1) foot contour interval. Horizontal survey control will be prepared in New Jersey State Plane Coordinate System, North American datum 1983 (NAD83). Vertical survey control will be North American Vertical datum 1988 (NAVD88) and will be referenced on the survey. The final plan will be prepared as an AutoCAD drawing file showing the graphic scale and north arrow.

PS&S survey crews will also perform a survey of utilities within the project area as defined above. We will make reasonable investigations concerning the location and size of underground utility lines on site and on public streets. Where surface indications of the presence of such utilities are apparent, such features will be located on the plans. However, PS&S cannot be responsible to detect or locate buried utilities for which no surface indications are present, nor shall PS&S be responsible for the accuracy of information taken from records and drawings provided by others or locations marked out by utility companies. The drawing will also be prepared as an AutoCAD file.

2.2 Site Civil Engineering Services

2.2.2 Construction Documents Phase

In this phase of the project, PS&S will prepare site construction plans for the proposed improvements at the Degnan Park Ball Field. The Topographic and Utility Survey prepared by PS&S (in AutoCAD format) will form the base map for the site plan documents. PS&S will utilize the layout (in AutoCAD format) as prepared by Turf Field dated December 16, 2019 for incorporation into the construction plans. PS&S will prepare the following construction plans with sufficient detail as to provide sufficient information for bidding purposes. Based upon our understanding of the proposed project, we expect the site construction plans to consist of the following:

- Cover Sheet; showing key and vicinity maps, owner/applicant

- information, and sheet index;
- General Notes, Legend, and Abbreviations Plan;
 - Existing Conditions Site Plan; (Topographic and Utility Survey prepared by PS&S).
 - Site Plan; showing distances between key structures, softball field dimensions, new fencing and scoreboard location.
 - Grading, Drainage Plan; showing proposed grading, utility (storm), and structures, invert and rim elevations, pipe materials, pipe sizes and slopes, and connections to existing lines.
 - Soil Erosion and Sediment Control (SESC); showing SESC measures as required by the Hudson-Essex-Passaic Soil Conservation District (SCD);
 - Site Details Sheet(s) (up to 2 sheets, scale: as necessary); showing details for the site items specified by PS&S; and

PS&S has assumed that the ball field improvements will not require Township approvals for the construction of the proposed improvements. If Township approval is required, PS&S will prepare a separate proposal for the additional scope of work.

Additionally, we have assumed that the proposed improvements and turf ballfield will not trigger Stormwater Management design requirements and that the proposed turf field is considered pervious coverage.

PS&S has assumed that no meetings are needed for this phase and all coordination with West Orange Township can be handled via teleconference and/or email correspondence.

2.2.3 Permit Application Preparation Phase

- **Soil Conservation District (SCD) Certification**
PS&S will prepare an application for SCD certification to the Passaic-Essex-Passaic Soil Conservation District.

Following submission of permit application documents and/or site plan packages which are deemed administratively complete by the Hudson-Essex-Passaic SCD, PS&S will perform one (1) round of minor revisions. Major revisions to plans will be undertaken on a time and expense basis.

2.2.4 Bid and Award Phase (If required)

It is our understanding that the Township may be able to contract Field Turf directly through a cooperative purchasing network for the complete installation of the ballfield. In the event that a cooperative agreement is not possible, PS&S has prepared the following scope of work. In this phase if requested and required, PS&S

will assist the Township of West Orange in developing the Bidding Documents consisting of Scope of Work, Proposal Form and List of Unit Pricing Form. We will respond to all Requests for Information from bidders prior to the date of the bid. We will review bids received and provide a tabular comparison and a written summary of the comparison of the bids received.

PS&S has assumed that no meetings are needed for this phase and all coordination with West Orange Township can be handled via teleconference and/or email correspondence.

2.2.5 Construction Administration Services

PS&S will work with the project team through the construction process and provide the following site/civil engineering services during the construction administration phase:

- PS&S will review shop drawings for standard site infrastructure as indicated on the site plans.
- PS&S will review requests for information from the contractor and provide guidance with respect to the design plans.
- PS&S will attend field meetings during the construction process to address field issues and concerns. At this time, we have budgeted a total of three (3) field meetings for the duration of the construction phase.
- PS&S will also coordinate with the owner and project team during the construction administration phase.
- PS&S will prepare a final punch list, site walk through for project close out.

2.3 Electrical Engineering Services

PS&S will perform the following electrical engineering design services:

- PS&S will first locate available nearby power source to determine if any nearby electrical circuit can be reused and extended to feed the new scoreboard. Site walkthrough of the Park will be performed. New electrical wires will be installed in electrical conduits directly buried under the ground surface.
- The existing electrical panel will be evaluated to confirm they are adequate to provide electric power to the new scoreboard.

- Preparation of Drawings including plans, underground power distribution, electrical panel schedules, electrical conduit and wire schedules, miscellaneous electrical details, and specifications on drawings, suitable for construction.

3.0 OUT-OF-SCOPE SERVICES

While we believe the intent of each task listed in the scope of basic services is clear and limited, from time to time a reading of those services may infer a broader scope than was intended. In order to help clarify the scope of basic services, we point out that the services listed above do not include the following, which may be required on this project. If you would like PS&S to furnish these or any other out-of-scope services, we would be pleased to discuss a mutually agreeable scope of services and fee arrangements. PS&S will not provide out-of-scope services without your written approval of the modified scope and fee arrangements.

- NJDEP Flood Hazard Area or Freshwater Wetlands permitting;
- Off-site water, sewer, drainage, utility and roadway design;
- Changes or revisions beyond our control, changes or supplemental work as may be required by the Municipality or other review agencies or regulations, or changes in the provided project concept after design work has commenced;

2. LICENSED SITE REMEDIATION PROFESSIONAL (LSRP) CONDITIONS

When work performed by PS&S includes the services of an Licensed Site Remediation Professional ("LSRP"), the LSRP will use his or her professional judgment to make recommendations as to actions required based upon the LSRP's review of the applicable statutes, regulations and guidance documents. The Client acknowledges that the LSRP's recommendations or issuance of any Response Action Outcome ("RAO") shall not constitute: (i) any acceptance of liability on behalf of PS&S or any LSRP employed by PS&S; (ii) any form of guarantee, indemnity or insurance for any legal liability or obligation of the Client. Further, the Client acknowledges that when PS&S's services hereunder entail the use of professional judgment, PS&S is not providing any guarantee that any other professional reviewing PS&S's work hereunder will not offer different recommendations or reach different conclusions based on that professional's use of his or her judgment. The Client acknowledges that PS&S is not responsible to the Client or any third-party for costs resulting from a different recommendation or different conclusion rendered by another party.

Under the Site Remediation Reform Act, N.J.S.A. 58:10C-1 et seq. ("SRRRA"), the New Jersey Department of Environmental Protection (NJDEP) can audit and review an RAO and the Site Remediation Professional Board can review work performed by an LSRP. Further, an RAO can be invalidated if NJDEP determines that the RAO is not protective of human health and the environment. Neither PS&S nor the LSRP shall be held responsible for the invalidation of the RAO, and any services which might be required due to any such invalidation shall be considered an Additional Service.

The State has established mandatory and regulatory time frames to complete certain remediation requirements. If these time frames are not met, fines and potential NJDEP direct oversight could be imposed upon the Client. To the extent provided for in the scope of work, PS&S will advise the Client of deadlines and actions necessary to fulfill the requirements of such time frames. The Client acknowledges that PS&S's provision of such advice will not and does not shift responsibility for compliance with such time frames to PS&S. Further, if the Client delays in approving and proceeding with the recommendations of PS&S's LSRP in meeting these time frames or the Client delays in payment of services rendered by PS&S, which results in a delay to the progress of the project, the Client agrees that PS&S will not be held responsible or liable for any fees, fines, or financial impacts incurred as a result of NJDEP's direct oversight, fines, and fees.

Furthermore, the Client acknowledges that in the context of supporting any conclusions or recommendations made to any third-party or governmental entity, PS&S may be required to release or otherwise publish: data from tests performed on samples taken from the project location; physical observations of the project location; or other technical information obtained by PS&S regarding the physical conditions of the project location, including but not limited to, submissions made by PS&S's LSRP in connection with a project. Client expressly acknowledges that under SRRRA, if the LSRP identifies a condition at the Site that, in the professional judgment of the LSRP, is an Immediate Environmental Concern ("IEC") (as defined in the SRRRA), the LSRP is obligated to so advise the Client and to call the NJDEP's telephone hotline to advise the NJDEP of such IEC.

GENERAL CONDITIONS OF SERVICE

Page 1 of 2

These General Conditions of Service and the PS&S Rate Schedule are attachments to this PS&S Proposal. Together they comprise the agreed terms under which PS&S will provide its Services (hereinafter referred to as the "Agreement") for the project described in the Proposal (the "Project"). Any Services requested or required that are not described in the Proposal are considered to be Additional Services. Additional Services will require a written amendment to this Agreement before being performed.

1. CHARGES FOR SERVICES

When PS&S is to be paid on the basis of time expended and expenses incurred on the Project, compensation shall be determined using the hourly rates on the attached Schedule of Charges & Hourly Rates. These rates are effective for six months from October 1, 2019. PS&S reserves the right to increase its rates every six (6) months. However, in no event shall the rates be increased by more than ten percent (10%). If PS&S is to be paid on a fixed-fee or lump-sum basis, compensation shall be paid either on a percentage-of-completion basis, or in accordance with the milestone achievement schedule included in the Proposal.

If the Client requests PS&S to provide other Services in addition to those described in the attached Proposal, PS&S requires a written additional service authorization amending this Agreement, before PS&S will proceed with that work.

2. CHARGES FOR OTHER DIRECT PROJECT EXPENSES

All other expenses incurred for a Project will be separately billed at actual cost plus fifteen percent (15%). Such expenses include, but are not limited to, costs for: subcontractor(s)/consultant(s); laboratory; reproduction [printing, binding, etc.]; special equipment required for Project execution; Project-required travel; special insurance coverage in excess of or different from PS&S's standard insurance coverage; and, any other costs particular to Project engagement. Mileage costs will be billed at the rate authorized by the Internal Revenue Service. If rental vehicles are used (at the option of PS&S), the actual rental charges plus fifteen percent (15%) will be billed instead of using the IRS mileage reimbursement rate.

3. TIME FOR PERFORMANCE

Delays created by scheduling of government meetings, or by Client not responding timely to requests for input, information, or decisions may extend the Project schedule and require an increase in PS&S's compensation. If PS&S's Services have not been completed by the date established in the Proposal for the completion of Services, through no fault of PS&S, all PS&S Services provided thereafter shall be compensated on an hourly-rate basis using the rates attached, notwithstanding any other compensation amount set forth in the Proposal.

Neither party shall be liable to the other for any delay or failure in performance of any of the obligations under this Agreement to the extent such delay or failure is caused by fire, flood, earthquake, civil, governmental or military authority, acts of God, war, terrorist acts, or other similar causes beyond a party's reasonable control and without the fault or negligence of the delayed or non-performing party.

4. PAYMENT

Invoices for all Services: will be issued on a monthly basis; are considered due upon receipt; and, must be paid within 30 days of the invoice date. Interest at one percent (1%) per month (but not exceeding any maximum rate allowed by law) will be charged on any invoice amount not paid within 30 days of the invoice date. All reasonable attorney's fees and costs incurred by PS&S to collect any delinquent amounts shall be added to the amount to be paid by the Client.

PS&S shall not be obligated to deliver any documents for governmental review, deliver any documents or Services for the next Project milestone,

sign and seal documents (or any final Construction Documents), nor shall PS&S be obligated to commence providing any Services during the Construction Phase of a Project while any invoice for properly performed Services (or previously delivered document) is due and remains unpaid more than 30 days after invoice date. If any undisputed invoiced amounts are not paid within 60 days of invoice date, PS&S may suspend its Services or terminate this Agreement whether on this project or another PS&S engagement. Once Services are suspended for nonpayment, they will be resumed at the discretion of PS&S but only when all unpaid amounts, including accrued interest, are paid in full on all other engagements. If PS&S terminates this Agreement for non-payment, the Client shall also be obligated to pay the reasonable costs associated with termination. A suspension of Services shall not preclude PS&S from later electing to terminate this Agreement for continued non-payment of its invoices. Any failure by PS&S to terminate or suspend Services shall not constitute a waiver of, nor be considered a limitation of, these or any other rights and remedies available at law or equity.

If the Client requests PS&S to suspend Project Services for more than 60 days, the Client shall pay PS&S a charge of not more than ten percent (10%) of the amount due for the remaining unperformed Services, as a condition for PS&S to resume the performance of its Services, according to a mutually acceptable revised Project Schedule.

5. TAXES

If applicable, the Client shall pay the cost of any sales, use, excise, value-added or other tax, which is or may become applicable to the Services, in addition to the amount of compensation due to PS&S under this Agreement.

6. PS&S'S RESPONSIBILITIES

PS&S shall perform its Services in a manner consistent with that level of skill and care ordinarily exercised by other professional consultants providing the same or similar Services, under similar circumstances and location that exist at the time of providing the Services. PS&S represents that it is duly qualified to provide the Services that are covered by this Agreement and that it is authorized to enter into and execute this Agreement. No other representation, express or implied, and no warranty or any guarantee is made as part of this Agreement, or in any report, document or other communication provided as part of the Services.

If changes are made by the Client or others to aspects of the project, such as location, that affect the design documentation or Services provided by PS&S, all PS&S liability for such changes and their consequences shall be waived by the Client and Client shall have sole responsibility and liability for such changes and their consequences, unless PS&S was previously advised in writing of such changes, and allowed the proper time in accordance with applicable professional standards, to evaluate such changes. Client shall compensate PS&S for the time required to provide any evaluation required due to such changes.

PS&S's Services are provided to meet the requirements of applicable standards of care, applicable laws, building codes and regulations to obtain needed approvals and permits of governmental authorities with jurisdiction over the project. These requirements may be interpreted differently by government inspectors and building officials, requiring changes to the design documents and the project construction even after permits and approvals have been issued. While this may increase the construction costs of the Project, it does not mean that the design documents were not prepared to meet applicable requirements or professional standards. The additional costs that result, if any, will be deemed to be value-added items, as if required in the original design documentation, and shall not be the basis for any claim for damages against PS&S.

Effective Date: October 1, 2019

7. CLIENT'S RESPONSIBILITIES

The Client will provide to PS&S all available information pertinent to or required for the performance of PS&S's Services as described in this Agreement. PS&S will be permitted to rely on the accuracy and completeness of the Client-supplied information unless doing so would be a breach of the standard of care set forth in Section 6 above. The Client will provide PS&S access to all public and private property as necessary for PS&S to perform its Services, and give prompt written notice to PS&S whenever the Client becomes aware of anything that could affect the Services.

8. PURCHASE/WORK/TASK ORDERS

If the Client issues a purchase/work/task order or other document related to PS&S's Services, it is agreed that such document is issued for Client's internal accounting purposes only and shall not amend, supplement, modify, or delete any terms or conditions of this Agreement regardless of the language on that purchase/work/task order. If there is any conflict between the terms and conditions of such purchase/work/task order and this Agreement, the terms and conditions of this Agreement shall govern.

9. MUTUAL WAIVER OF CONSEQUENTIAL DAMAGES

PS&S and the Client each waive the right to make any claims against the other for consequential damages arising out of or related to this Agreement.

10. LIMITATION OF LIABILITY

To the fullest extent permitted by law, PS&S's total liability to the Client for any and all injuries, claims, losses, costs, damages, or claim expenses arising out of or related to this Agreement, however caused, shall not exceed the total amount of \$50,000 or the amount of PS&S's fee (whichever is greater).

11. PROJECT CONSTRUCTION AND SITE SAFETY

PS&S shall not be responsible for the means, methods, techniques, procedures or sequence of construction, nor shall PS&S be held responsible for the safety precautions and programs of the Client's contractor(s) working at the Project Site, or any failure of those contractor(s) to comply with applicable laws, rules, or regulations. To the fullest extent permitted by law, neither PS&S nor any of its employees, consultants, authorized agents or representatives performing Services at the Project Site or elsewhere shall be liable for any injury occurring as part of the construction of the Project or any site work, due to a failure, breach or disregard of construction safety standards, procedures, site-specific programs, transportation regulations, or industry practices at the construction Project (or Site) by the Client's contractors or others for whom PS&S is not responsible under this Agreement. PS&S shall only be responsible for the adherence and compliance of all PS&S employees, consultants, authorized agents and representatives with the Project-site safety programs and procedures, and the laws and regulations applicable to those for whom PS&S is responsible under this Agreement.

12. HAZARDOUS OR TOXIC MATERIALS

Unless specifically agreed to in the Proposal, which is part of this Agreement, PS&S shall not be responsible to search for, detect, test, investigate or determine the presence of, monitor, remediate, clean up, remove, contain, treat, detoxify or neutralize hazardous, toxic or radioactive materials, mold, or any other pollutant or toxin within or adjacent to the Project or Site, which is the subject of this Agreement.

13. DOCUMENTATION AND ELECTRONIC MEDIA LIMITATIONS

- A. All drawings, specifications and/or other documents created by PS&S ("Documents") are instruments of service prepared for the Project. PS&S, as the author, retains the intellectual property rights in the Documents, subject to the licenses and rights to use granted in this Agreement.
- B. PS&S grants to the Client an unlimited license to make and retain copies of Documents but solely in connection with its use on the Project. The Documents are not intended or represented to be suitable for use by Client or others to prepare shop drawings, for extensions of the Project

at or on land adjacent to the Project Site or at any location other than the Project Site. Client shall not add to, modify or alter nor allow others to add to, modify, or alter the Documents including any printed copies of the Documents, unless Client shall have removed all references to "Paulus, Sokolowski and Sartor," "PS&S" and any other references, marks, and the like [including metadata or other electronic tags] that relate in any way to, or can be used to identify PS&S as the author of the Documents.

- C. Client shall indemnify, defend, save and hold PS&S, its subconsultants and each of their partners, officers, shareholders, directors and employees harmless from and against any and all claims, judgments, suits, liabilities, damages, costs or expenses (including reasonable attorneys' fees) arising as the result of: i) Client's failure to comply with any of the requirements of this Section 13; or ii) any use, addition to, modification, alteration, change to or misinterpretation of the Documents by Client, or any party that receives the Documents from the Client (the "User(s)").
- D. Files provided in electronic media format [text, data, graphics, or other types of information] are furnished only for the convenience of Client and/or its authorized users. Because data stored in electronic media format can deteriorate or be modified inadvertently or otherwise without authorization of the data's creator, the Users shall perform acceptance tests or procedures within 10 days of receipt of the files, after which the Users shall be deemed to have accepted the data transferred. PS&S shall not be responsible to maintain Documents stored in electronic media format after acceptance by the Client or its Users.
- E. When transferring documents in electronic media format, PS&S makes no representations as to long-term compatibility, usability, or readability of Documents resulting from the use of software application packages, operating systems, or computer hardware differing from those used by PS&S. Copies of Documents that may be relied upon by the Client, or its User(s) are limited to the printed versions (also known as hard copies) that are signed and sealed by PS&S.
- F. Client accepts that the conversion of the printed versions of Documents into electronic media format or conversion of Documents from the format supplied by PS&S to another format may introduce errors or other inaccuracies. Client and its Users shall confirm the accuracy of the Documents before using them. Client accepts all responsibility for any errors or inaccuracies arising from the conversion of the Documents to another client-selected format, and releases PS&S and its subconsultants from any liability, costs, losses, or damages or expenses arising as the result of conversion errors or inaccuracies.
- G. Client waives any and all claims and liability against PS&S and its subconsultants resulting in any way from the use of the Documents transmitted pursuant to this Section 13.

14. OTHER TERMS

This Agreement shall be construed in accordance with, and governed by, the laws of the State of New Jersey excluding any choice-of-law principles, including those of the law of the state where the Project is located that would require the application of the laws of a jurisdiction other than New Jersey.

Each party to this Agreement for itself, its successors and in respect of its property, irrevocably consents and agrees that: i) any legal action or proceeding with respect to this Agreement will be brought in a state or federal court in the State of New Jersey, which shall be the exclusive jurisdiction for all legal matters and any appeals; and ii) irrevocably waives any objection that it may have now or later to the laying of venue of any of the aforesaid actions or proceedings in a location in the State of New Jersey.

If any term of this Agreement or its application to any person or circumstance shall be determined to be invalid or unenforceable, the remaining provisions of this Agreement and/or the application of terms or provisions other than those that are found to be invalid or unenforceable, shall not be affected, and this Agreement shall be valid, binding, and enforceable to the fullest extent permitted by law.

RE: REQUEST FOR PROPOSALS
DEGNAN PARK BALL FIELD IMPROVEMENTS
ARTIFICIAL TURF
ALISA DRIVE, BLOCK 154.19, LOT 6

Dear Mr. Cohen:

The Township of West Orange requests proposals from professional firms capable of providing land surveying and engineering design services for the Degnan Park Ball Field Improvements with artificial turf. Degnan Park is located on Alisa Drive, Block 154.19, Lot 6. Attached please find a schematic plan entitled "Degnan Park Softball, West Orange, NJ" prepared by Field Turf and dated December 16, 2019, a Field Turf Drafter Checklist dated December 16, 2019, a Boundary and Topographic Survey of Degnan Park prepared by Jerzy Baraniewicz, P.L.S. dated March 23, 2011 depicting the proposed improvements and a Key Map. The Township may be able to contract with Field Turf directly through a cooperative purchasing network for the complete installation of the artificial turf field including excavation, grading, underdrain installation, select material placement, artificial turf construction including infill placement, scoreboard installation with electrical conduit, wiring and service connections and fencing.

Consequently, the proposal shall specify the costs for three distinct services:

- I. Design and specifications including:
 - A. Field survey in and adjacent to the proposed artificial turf field.
 - B. Field design including excavation, grading, underdrains, artificial turf field, fencing and a scoreboard.
 - C. Construction Specifications
- II. Bid Documents in the case where a cooperative purchasing network cannot be used. This service will also include bid phase services for review and analyzing bid results and a contract award recommendation.

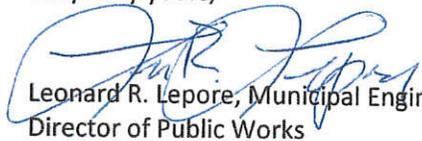

- III. Construction Phase services including construction inspection, contract management and administration including approval of shop drawings, materials and equipment, payment review, payment approval and attendance at project meetings.

The services outlined in II above will only be required if the construction services cannot be contracted through a cooperative purchasing network. The services in I and III will be required regardless of how the contract is awarded.

The Proposals are due by Monday, February 24, 2020 at 3:30 pm, and they shall be submitted to Leonard R. Lepore, P.E., Municipal Engineer, Director of Public Works, 25 Lakeside Avenue, West Orange, New Jersey 07052. The fees shall be a not to exceed lump sum price. Phase II will have a separate fee from Phases I and III.

TERMS AND CONDITIONS:

These Terms and Conditions, together with the Quote, Sales Order and/or Credit Application on the front side, are hereinafter referred to as this "Agreement" and shall constitute the entire agreement between the customer ("Customer") identified in this Agreement and Cummins and supersede any previous agreement or understanding (oral or written) between the parties with respect to the equipment ("Equipment") identified in this Agreement.

QUOTE TERM; SCOPE. The Quote is valid for 60 days. The price is firm provided drawings are approved and returned within 60 days after submission and ship date is not extended beyond published lead times. Any delays may result in escalation charges. A Sales Order for Equipment is accepted on hold for release basis. The Sales Order will not be released and scheduled for production until written approval to proceed is received. The Quote is limited to plans and specifications section set forth in the Quote. No other sections shall apply. Additional requirements for administrative items may require additional costs. The Quote does not include off unit wiring, off unit plumbing, offloading, rigging, installation, exhaust insulation or fuel, unless otherwise stated.

SHIPPING; DELIVERY. Equipment is quoted FOB origin, freight prepaid to first destination, unless otherwise stated. For consumer and mobile products, freight will be charged to Customer. A reasonable storage fee, as determined by Cummins, may be assessed if delivery of the Equipment is delayed, deferred, or refused by Customer. Offloading, handling, and placement of Equipment and crane services are the responsibility of Customer and not included in proposal, unless otherwise stated. All shipments are made within normal business hours, Monday through Friday. Any delivery, shipping, installation, or performance dates indicated in this Agreement are estimated and not guaranteed. Further, delivery time is subject to confirmation at time of order and will be in effect after engineering drawings have been approved for production. Cummins shall use best efforts to meet estimated dates, but shall not be liable for any delay in delivery, shipping, installation, or performance, however occasioned. Cummins may deliver in installments. Unless otherwise agreed to, packaging method, shipping documents and manner, route and carrier and delivery shall be as Cummins deems appropriate.

PAYMENT TERMS; CREDIT; RETAINAGE. If Customer has approved credit, as determined by Cummins, payment terms are net thirty (30) days from the date of invoice unless otherwise specified in the Quote, without deduction or setoff. If payment is not received when due, in addition to any rights Cummins has under the law and charges that Cummins may levy against Customer under statute (including attorney fees and costs of collection), Cummins may charge Customer eighteen percent (18%) interest annually, or the maximum amount allowed by law, on late payments. Payment shall be due in advance if Customer does not have approved credit. Retainage is not acceptable nor binding, unless required by statute or accepted and confirmed in writing by Cummins prior to shipment.

TAXES; EXEMPTIONS. Unless otherwise stated, the Quote excludes all applicable local, state and federal sales and/or use taxes, permits and licensing. Customer must provide a valid resale or exemption certificate prior to shipment of Equipment or applicable taxes will be added to the invoice.

TITLE; RISK OF LOSS. Title and risk of loss for the Equipment shall pass to Customer with delivery made in accordance with the delivery terms set forth above.

INSPECTION AND ACCEPTANCE. Customer shall inspect the Equipment upon delivery, before offloading, for damage, defects, and shortage. Any and all claims which could have been discovered by such inspection shall be deemed absolutely and unconditionally waived unless noted by Customer on the bill of lading. Where Equipment is alleged to be non-conforming or defective, written notice of defect must be given to Cummins within three (3) days from date of delivery after which time Equipment shall be deemed accepted. Cummins shall have a commercially reasonable period of time in which to correct such non-conformity or defect. If non-conformity or defect is not eliminated to Customer's satisfaction, Customer may reject the Equipment (but shall protect the Equipment until returned to Cummins) or allow Cummins another opportunity to undertake corrective action. In the event startup of the Equipment is included in the services, acceptance shall be deemed to have occurred upon successful startup.

LIEN; SECURITY AGREEMENT. Customer agrees that Cummins retains all statutory lien rights. To secure payment, Customer grants Cummins a Purchase Money Security Interest in the Equipment. If any portion of the balance is due to be paid following delivery, Customer agrees to execute and deliver such security agreement, financing statements, deed of trust and such other documents as Cummins may request from time to time in order to permit Cummins to obtain and maintain a perfected security interest in the Equipment; or in the alternative, Customer grants Cummins a power of attorney to execute and file all financing statements and other documents needed to perfect this security interest. Cummins may record this Agreement, bearing Customer's signature, or copy of this Agreement in lieu of a UCC-1, provided that it shall not constitute an admission by Cummins of the applicability or non-applicability of the UCC nor shall the failure to file this form or a UCC-1 in any way affect, alter, or invalidate any term, provision, obligation or liability under this Agreement. The security interest shall be superseded if Customer and Cummins enter into a separate security agreement for the Equipment. Prior to full payment of the balance due, Equipment will be kept at Customer's location noted in this Agreement, will not be moved without prior notice to Cummins, and is subject to inspection by Cummins at all reasonable times.

CANCELLATION; CHARGES. If Customer cancels all or a portion of this Agreement after its release to Cummins, Customer may incur a cancellation charge in accordance with current Cummins policy which is available upon request, in addition to the actual, non-recoverable costs incurred by Cummins. Written cancellation notice is required.

SUBMITTALS AND MANUALS. Unless otherwise stated, electronic submittals and STANDARD electronic O & M manuals will be provided, and print copies may be available upon Customer's request at an additional cost.

TRAINING; START UP SERVICES; INSTALLATION. Startup services, load bank testing, and owner training are not provided unless otherwise stated. Site startup will be subject to the account being current and will be performed during regular Cummins business hours, Monday to Friday. Additional charges may be added for work requested to be done outside standard business hours, on weekends, or holidays. One visit is allowed unless specified otherwise in the Quote. A minimum of two-week prior notice is required to schedule site startups and will be subject to prior commitments and equipment and travel availability. A signed site check sheet confirming readiness will be required, and Cummins personnel may perform an installation audit prior to the startup being completed. Any issues identified by the installation audit shall be corrected at the Customer's expense prior to the start-up. Portable load banks for site test (if offered in the Quote) are equipped with only 100 feet of cable. Additional lengths may be arranged at an extra cost. Cummins is not responsible for any labor or materials charged by others associated with start-up and installation of Equipment, unless previously agreed upon in writing. Supply of fuel for start-up and/or testing, fill-up of tank after start up, or change of oil is not included unless specified in the Quote. The party seeking indemnification shall give written notice to the other party promptly upon learning of the events giving rise to such claim; provided, however, that failure to provide such notice promptly shall only relieve an indemnifying party of its obligations hereunder to the extent it is prejudiced by such delay. The indemnifying party shall select counsel to control and manage the defense of a claim and the settlement thereof and shall keep the indemnified party apprised of all material developments with respect to such claim. The indemnified party may, at its expense, select additional co-counsel. Customer undertakes to perform its obligations under this Agreement with due regard to these policies. Strict compliance with this provision and all laws of the territory pertaining to the importation, distribution, sales, promotion and marketing of the Equipment is a material consideration for Cummins entering into this Agreement with Customer and continuing this Agreement for its term. Customer represents and warrants that it has not and shall not, directly or through any intermediary, pay, give, promise to give or offer to give anything of value to a government official or representative, a political party official, a candidate for political office, an officer or employee of a public international organization or any other person, individual or entity at the suggestion,

request or direction or for the benefit of any of the above-described persons and entities for the purposes of inducing such person to use his influence to assist Cummins in obtaining or retaining business or to benefit Cummins or any other person in any way, and will not otherwise breach any applicable laws relating to anti-bribery. Any failure by Customer to comply with these provisions will constitute a default giving Cummins the right to immediate termination of this Agreement and/or the right to elect not to recognize the warranties associated with the Equipment. Customer shall accept full responsibility for any and all civil or criminal liabilities and costs arising from any breaches of those laws and regulations and will defend, indemnify, and hold Cummins harmless from and against any and all fines, penalties, claim, damages, liabilities, judgments, costs, fees, and expenses incurred by Cummins or its affiliates as a result of Customer's breach.

Built upon over seventy-five years of combined team experience, Settembrino Architects is the leader in providing our Public Sector clients cost-effective and innovative design services and solutions throughout the Garden State and into parts of New York. Founded by Principal and Middletown Mayor Kevin Settembrino, Settembrino Architects is a full-service Architecture & Interior Design firm located in downtown Red Bank, New Jersey.

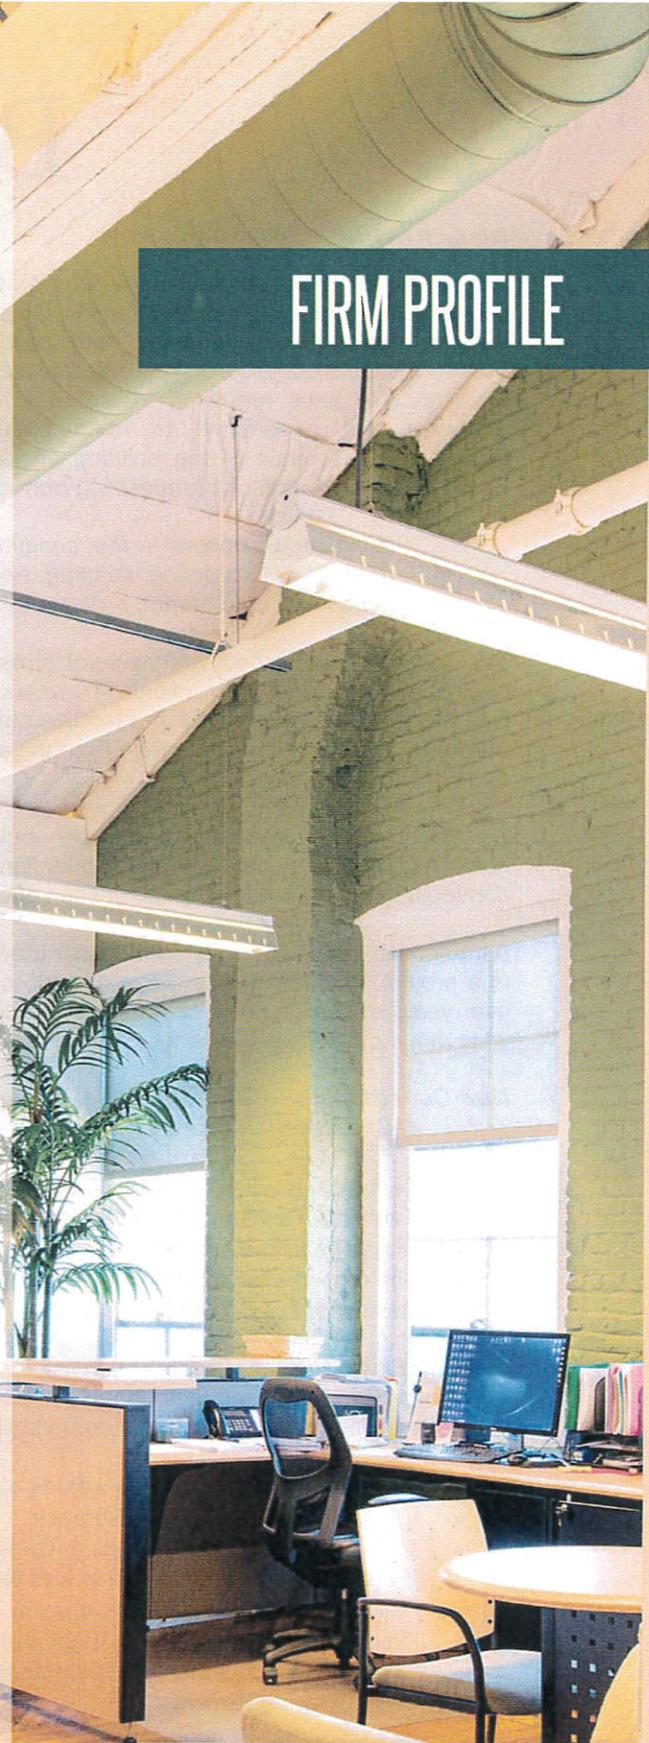

Our capabilities, drive and talent far exceed what one might expect from a "typical" Architectural firm, as we encompass the ability and the aspiration to **do more and be more** than the average competition. As a vehicle in our success, we continue to reinvest in industry technology; using the most current CAD and design software as well as the most advanced and capable hardware. Online project software and data management allows Settembrino Architects time saving solutions in sending and receiving vital project information such as drawings, documentation, letters and sketches. **We stay up to date to effortlessly keep our projects up to date as well.** Through established remote access, our team can manage and work on projects anywhere, even on site.

We have an **award-winning** focus on sustainable design practices and smart buildings. The County of Cape May hired Settembrino Architects as their LEED Consultant for their first LEED Silver Certified Building. Our Senior Staff are all **LEED Accredited Professionals** and thought leaders in advancing the relationship between building and environment in addition to using renewable resources versus non-renewable ones.

Settembrino Architects has been recognized numerous times for "**Excellence in Architecture**" on several projects and project types. Additionally, our firm has received the **2012 AIA Design Award Citation** for our Memorial School Solar Courtyard designed for the Union Beach Board of Education. To seamlessly integrate solar panels into existing architecture, our team has developed innovative concepts incorporating the use of both science and nature. Amongst these strategies is the utilization of Solar Trees. These structures essentially marry some of the most advanced technology of our time to our need for an aesthetically pleasing environment.

We stand out because our clients come first. Because we listen to their needs, draw from the right resources and deliver consistent outcomes, our clients welcome results which exceed expectation.

1. Appropriateness & Quality of Firm's Experience

Since 1987, Building Evaluations, Inc. has developed over 5,000 estimates for more than 750 local, national and international clients. Our team of highly experienced construction management and design professionals has expertise that spans the full range of disciplines, including architectural, structural, civil, mechanical, and electrical engineering. Utilizing our vast experience in the industry, Building Evaluations, inc. can develop realistic cost estimates at any stage during the design and construction process. We pride ourselves on working within the time schedule of your design team and honoring your established deadlines. Every estimate we produce is custom tailored to your needs and the individual requirements of your project.

Our clients include architects, construction managers, owners, engineers, contractors and appraisers across the country. As one of the nation's leading estimating services, Building Evaluations, Inc. utilizes state-of-the-art technologies to deliver accurate and up-to-date cost estimates at a cost effective price. We're pre-qualified with most local and federal government agencies and are a certified small business enterprise (SBE).

2. Proposed Methodology & Response Time

Building Evaluations, Inc. has developed a four-step process to ensure that your project is always utilizing the most up-to-date and reliable construction cost projections possible. With more than 40 years in the industry, Building Evaluations, Inc. has the expertise and experience to help bring your project to completion-within budget, on time and on target!

STEP #1 – THE CONCEPTUAL ESTIMATE:

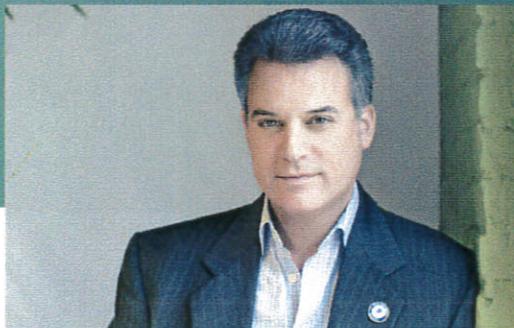

The start of the process is the Conceptual Estimate. Because very little concrete information is available at the start, Building Evaluations, Inc. has developed a questionnaire to assist in establishing the early data for the project. Using this input, we determine the type, size, design features, and quality of the projected building systems. Labor and material costs are adjusted according to the actual location of the project, and an appropriate escalation factor is added to the estimate based on the projected bid date. The conceptual estimate takes approximately one to two weeks to complete depending on the complexity of the project.

STEP #2 – THE SCHEMATIC ESTIMATE:

Early in the design phase, we develop the Schematic Estimate, based on rough sketches and detailed discussions with the design team. At this point various design alternates may be considered in order to achieve the best value for the construction dollar. Developing accurate cost estimates for each design scheme is paramount in determining the final direction for the project. Each building system is carefully analyzed to determine the quantities and materials required for its construction and installation. The Schematic Estimate takes approximately one to two weeks to complete depending on the complexity of the project.

PROJECT summary

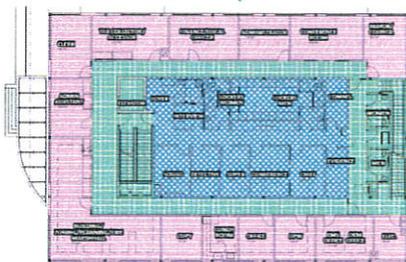

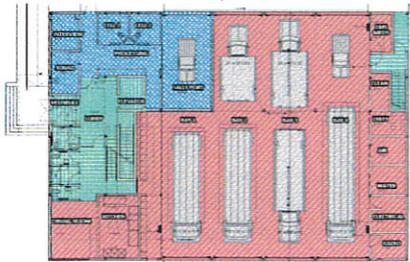

The Sea Bright Emergency Response Center is intended to replace the existing Fire Department, Police Station, Administration and EMS, which were severely damaged by Superstorm Sandy. The existing buildings are located at 1099 Ocean Avenue and lie just inland of the beach. It is on this site that the new center will be constructed, containing enough space for the Fire Station, Police Department, EMS Services and an Administration Area for a total of 11,400 gross square feet.

In the case of the Fire House, all vehicles and their support equipment are located at the first floor level with direct access to the street. The Sally Port + Processing Center are the Police component located at street level, while the EMS component has parking for an ambulance and a treatment space. An entrance foyer completes the accommodation assigned to the ground floor. The second floor level is divided into three distinct zones. Administrative functions occur along the east and west edges with the larger communal space located between the two. The spaces are arranged so that they can be shared by the Police and Fire Departments without compromising the security requirements of the Police Department.

The resultant building form is a simple two story box of similar scale to the surrounding commercial buildings. The building's external expression borrows elements from local Sea Bright architecture. Openings in walls are of the punched type with white trim. The proposed building uses three elements and colors to breakdown it's scale and box like form.

Settembrino Architects designed the New Police Headquarters for the Township of Clark. The structure is to be constructed behind the existing Police Headquarters. It is the Borough's intention to keep the existing Police facility functioning while the new Headquarters is constructed. On its completion the existing building will be demolished and the area developed as a parking lot to serve the new building. This arrangement effectively determines the location and footprint of the new building – i.e. at the rear (south) end of the existing building with its public face towards the north overlooking Westfield Avenue, and its more functional aspects (Sally Port/Police Parking) occurring at the south end of the building.

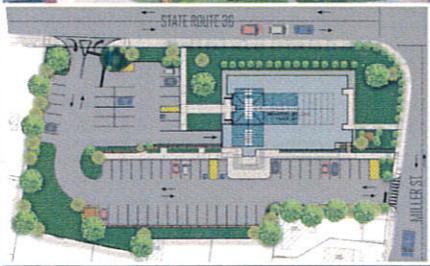

BOROUGH OF HIGHLANDS

New Municipal Complex

PROJECT Summary

The construction of a new Municipal Complex for the Borough of Highlands was deemed necessary due to damage to its existing facilities caused by Hurricane Sandy. Following an initial FEMA review and site selection evaluation, the Borough hired Settembrino Architects to design a new, multi-level, Borough Hall Building with an approximate 15,000 square foot building footprint. The new site for the structure is inland and above the flood zone, helping to protect it from future storm damage.

The new Highlands Municipal Complex will house several uses including the Police Headquarters, Municipal Court and the Administrative Offices. Settembrino Architects designed the conceptual site plan, as well as an initial conceptual rendering, with the intent of using the corner of Route 36 and Miller Street as a landmark entrance for the new Complex. The large, open foyer will welcome visitors with a flood of natural daylight from large skylights above. The architecture directly reflects the downtown shore atmosphere of the Highlands.

BOROUGH OF EATONTOWN

New

Wolcott Park Comfort Station

PROJECT BACKGROUND +
SCOPE of work

PROJECT summary

The Borough of Eatontown had received a Municipal Open Space Grant to complete this project. The existing facilities were contained in three buildings, the smallest of which housed an existing electrical room serving the buildings and sections of the park lighting and sprinkler system. It also contained some unused toilets. The second largest building contained the existing bathrooms together with a mechanical space housing electrical and water heating equipment. The third and largest building was primarily used to store park recreation and maintenance equipment.

Settembrino Architects was hired to combine the functions of the existing buildings into one new building on the same site, containing barrier free toilet rooms in addition to recreation and park storage. The design arranged these functions in a simple linear building measuring 17' wide by 63' long, covered with a steep pitched roof. The storage spaces occur at both ends of the building with access from gable end entrances. The bathrooms are located between these two spaces and are accessed off of a covered porch overlooking an existing pathway which leads into the main body of the park. Being that security is typically an issue with these types of facilities, natural lighting of the spaces is limited to a narrow strip of glazing just under the eaves of the roof. In the bathroom this system is supplemented with skylights. The intention was to construct a building using the familiar wood stud system clad in lap siding on the long sides and a metal panel system on the gable ends. The change in materials is an expression of the more utilitarian nature of the two ends of the building. The roof is composed of fiberglass shingles over simple trusses. Construction began in the Spring of 2015 and has since been completed.

BOROUGH OF EATONTOWN | Community Center Annex *historic* renovation

PROJECT BACKGROUND +
SCOPE of work

PROJECT summary

As the Architect of Record for the Borough of Eatontown, Settembrino Architects has completed the historic renovation of the Eatontown Community Center Annex. Built in the 1920's, this former residential building is now utilized as a day care center. With a project budget of \$200,000 from the Monmouth County Community Development Block Grant program, Settembrino Architects worked with the Borough Administration to complete interior and exterior renovations on the building, including the rebuilding of the front porch and entrance. Additionally, environmental engineers and abatement contractors were coordinated to remove any asbestos and lead-based paint from the affected project areas before the start of any construction work. The project was completed on time and on budget in August 2010.

The I. Hathaway House, currently used as the Eatontown Community Center Annex, was renovated as part of a Monmouth County Community Development Block Grant. An application was filed with NJ DEP Historic Preservation Office (SHPO) for the modifications to the building exterior. The existing exterior cladding was removed and was replaced with maintenance free cementitious siding. The floor and stair of the covered front porch was rebuilt with maintenance free composite deck flooring and cementitious siding at walls. Additionally, all decorative trim was scraped/repaired and painted.

After continued evidence of dangerous concrete spalling on site cast concrete, the NYCSCA hired Settembrino Architects to investigate and solve the issue. It was believed the spalling was coming from cast concrete columns and beams over the public sidewalk as well as the adjacent park property. PS 126M in Manhattan, a four-story cast concrete school building had exposed columns and beams which had begun to spall pieces of concrete which then continued down the sidewalk and into the park below. After immediate sidewalk bridges were erected to protect the public, the team at Settembrino Architects began a detailed forensic identification. First the problem area needed to be located, then the systemic damage would need to be repaired and the exterior building would need to be returned to its original design aesthetic.

With a combination of carefully selected masonry probe locations, and a thorough Water Ingress Assessment complete with spray and infrared testing, the location of the water infiltration was determined. Settembrino Architects discovered this infiltration had led to the expansion of the steel rebar within the concrete columns and beams. Systemic solutions included the removal and replacement of site cast concrete over all of the building's exterior. This included exposed portions of columns and beams, parapet brick veneer rebuilding and waterproofing and the addition of weep hole above all spandrel beam locations. Select roof areas needed replacement and an application of an elastomeric coating was applied to all areas of exposed concrete to protect the new site cast concrete. The project was completed in October 2009.

NYSCSA once again hired Settembrino Architects to investigate and solve the problems of a 40 year old school building with concrete spalling problems. The school had systemic exterior roof and veneer issues, concrete spalling and settlement problems and water infiltration concerns. Settembrino Architects, after careful investigation, began the management of the design for a complete Exterior Building Modernization. This modernization included a new roof, HVAC equipment, windows, window guards, select masonry veneer replacement, exterior concrete walk replacement and a new barrier free exterior entrance ramp. Additional interior upgrades included a media center renovation. This project was completed on-time and on-budget in September 2012.

The Absecon Board of Education hired Settembrino Architects to prepare an RFP and execute complete Construction Administration for a Solar Power Purchase Agreement (PPA) project for an 860kW Ground Mount Solar Array. The completed project is now generating approximately 90% of annual energy needed in the district and will save taxpayers over \$1 million during the fifteen

(15) year lease period. The project was executed by NJR, a division of New Jersey Natural Gas Company, with no capital outlay from the Absecon Board of Education and is providing cash savings every year. An educational kiosk at each school was included in the project as well as an online webpage to track real time energy savings.

TERMS AND CONDITIONS FOR PROFESSIONAL SERVICES
Matrix New World Engineering, Land Surveying and Landscape Architecture, PC

Section 1: SERVICES

Matrix New World Engineering, Land Surveying and Landscape Architecture, PC (Matrix) agrees to perform the professional services (the "Services") as described in the Proposal incorporated herein by reference for the CLIENT on a best efforts, time and materials basis under the terms and conditions set forth below. Matrix reserves the right to amend the contents of the Proposal, if written authorization is not received within 90 days. These Terms and Conditions together with the Proposal constitute the agreement between Matrix and the CLIENT for the Services (the "Agreement").

Section 2: COMPENSATION

The CLIENT shall be responsible for all costs specifically enumerated in the proposal. For any costs set forth in the proposal as a range, Matrix shall provide CLIENT with an exact cost as soon as it can be estimated.

CLIENT shall also be responsible for any REIMBURSABLE COSTS not specifically set forth in the proposal. REIMBURSABLE COSTS include: out-of-pocket expenses, the cost of which shall be charged at actual cost plus an administrative charge of fifteen percent (15%) and shall be itemized and included in the invoice. Typical out-of-pocket expenses shall include, but not be limited to, travel expenses (lodging, meals, etc.), job-related mileage at the prevailing IRS mileage rate, long distance telephone calls, printing and reproduction costs, and survey supplies and materials.

Section 3: CLIENT'S OBLIGATIONS

To assist Matrix in performance of the Services, CLIENT shall provide Matrix with appropriate material, data and information in its possession pertaining to the specific project or activity.

The CLIENT will advise Matrix of the nature and extent of the hazardous waste at the site. If Matrix discovers after it undertakes the Services that the site is of a different nature of hazard as defined by the client, or if unanticipated hazards are presented, the CLIENT and Matrix agree that the scope of services, schedule and estimated budget fee shall be adjusted as needed to complete the work without injury or damage.

Section 4: INVOICE PROCEDURE AND PAYMENT

Matrix will submit invoices to the CLIENT monthly and a final bill upon completion of the Services. Payment is due thirty (30) days from invoice date. CLIENT agrees to pay a finance charge of one and one-half percent (1.5%) per month, or the maximum rate allowed by law on past due accounts. CLIENT will be liable for all court costs, disbursements, and attorney's fees incurred in the collection of any outstanding invoices.

Section 5: OWNERSHIP OF DOCUMENTS

All survey notes, drawings, bills of materials, specifications, blueprints, reports, calculations and all other material prepared in connection with the specific project shall be property of the CLIENT and shall be transferred to the CLIENT upon completion of the project and upon receipt of complete payment for the scope of work outlined in the proposal. Matrix may retain a single copy of such information and documents.

Section 6: CONFIDENTIALITY

Matrix agrees to keep confidential and not to disclose to any person or entity, other than Matrix's employees and subcontractors, without the prior consent of the CLIENT, all data and information not previously known to and generated by Matrix, or furnished to Matrix and marked CONFIDENTIAL by the CLIENT in the course of Matrix's performance hereunder; provided, however, that this provision shall not apply to data which are in the public domain, or were previously known to Matrix, or were acquired by Matrix independently from third parties not under obligation to CLIENT to keep said data and information confidential. CLIENT shall not restrict Matrix from complying with an order to provide information or data when such order is issued by a court, administrative agency or other authority with proper jurisdiction.

The technical and pricing information contained in any proposal submitted by Matrix as to this project, or in the Agreement or any addendum thereto, is to be considered confidential and proprietary, and shall not be released or otherwise made available to any third party without express written consent of Matrix.

Section 7: BURIED UTILITIES

Matrix will conduct the research that in our professional opinion is necessary to locate utility lines and other man-made objects that may exist beneath the sites surface. The CLIENT recognizes that Matrix's research may not identify all subsurface utility lines and man-made objects. Matrix will take reasonable precautions to avoid damage or injury to any subsurface utilities or structures. The CLIENT agrees to hold Matrix harmless and the CLIENT agrees to pay for damages to underground utilities or structures which are not called to Matrix's attention or correctly shown on plans furnished by the CLIENT or third parties.

Section 8: DISCOVERY OF UNANTICIPATED HAZARDOUS MATERIALS

Hazardous materials or certain types of hazardous materials may exist at a site where there is no reason to believe they could or should be present. Matrix and the CLIENT agree that the discovery of unanticipated hazardous materials constitutes a changed condition mandating a renegotiation of the scope of work and compensation for the Services or termination of the Agreement. Matrix agrees to notify the CLIENT as soon as practically possible should unanticipated hazardous materials or suspected hazardous materials be encountered. The CLIENT encourages Matrix to take measures that in Matrix's professional opinion are justified or legally required to preserve and protect the health and safety of Matrix's personnel and the public, and/or the environment, and the CLIENT agrees to compensate Matrix for the additional cost of such work.

In addition, the CLIENT waives any claim against Matrix, and agrees to indemnify, defend and hold Matrix harmless from any claim or liability for injury or loss arising from Matrix's encountering of unanticipated hazardous materials or suspected hazardous materials. The CLIENT also agrees to compensate Matrix for time spent and expenses incurred by Matrix in defense of any such claim, with such compensation to be based upon Matrix's prevailing fee schedule and expense reimbursement policy.

Section 9: STANDARD OF CARE

The Services provided by Matrix under the Agreement will be conducted in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. No other representation, express or implied, and no warranty or guarantee, in fact or by law, whether of merchantability or fitness for a particular purpose or otherwise, is included or intended in the Agreement, or in any report, opinion, document or otherwise.

The CLIENT recognizes that subsurface conditions may vary from those encountered at the location where, and at the time when, borings, sampling, or testing are performed by Matrix and that the data provided by Matrix are based solely on the information available to Matrix. The CLIENT agrees to indemnify and hold Matrix harmless from and against all claims, damages, losses and expenses arising from the interpretation by others of data provided by Matrix.

Section 10: INDEPENDENT CONTRACTOR

Matrix shall be an independent contractor in performing the Services and shall not act as an agent or employee of the CLIENT. As such, and subject to the terms and conditions hereof, Matrix shall be responsible for its employees, subcontractors, and agents and for their compensation, benefits, contributions, and taxes, if any.

Section 11: JOBSITE HEALTH AND SAFETY

Insofar as jobsite safety is concerned, Matrix is responsible solely for its own employees' and subcontractor's activities on the jobsite, but this shall not be construed to relieve the CLIENT or his contractors from their responsibility for methods of work performance, superintendence, sequencing of construction, or safety in, on or about the jobsite.

Section 12: INSURANCE

Matrix is protected by: 1) Worker's Compensation Insurance as required by applicable law, 2) General Liability and Automobile Liability Insurance (in the amount of \$1,000,000 combined single limit) for bodily injury and property damage, and 3) Professional Liability (Errors & Omissions) with policy limits equal to at least \$1,000,000. Matrix shall provide insurance certificates illustrating the coverage herein defined to the Board prior to commencing work at the site.

Within the limits of said insurance, Matrix agrees to save the CLIENT harmless from and against loss, damage, injury or liability arising from negligent acts or omissions of Matrix, its subcontractors, and their respective employees and agents acting in the course and scope of this project. Matrix shall not be responsible for any loss, damage, or liability arising from any acts by the CLIENT, its agents, staff, and other consultants and subcontractors employed by the Client.

Section 13: INDEMNITY

A. Matrix

Matrix agrees to indemnify and hold harmless CLIENT from and against any and all losses, damages, liabilities, and expenses (including, but not limited to, legal fees and costs of investigation) to the extent resulting or arising out of negligence or willful misconduct of Matrix or performance of the Services hereunder, provided that such loss, damage, liability or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property, and not caused in whole or in part by any acts or omissions of the CLIENT, a third party, or anyone directly or indirectly employed by the CLIENT.

- D. To the maximum extent permitted by law, the limitations on damages, the releases from liability, the limitations of liability, and the exclusive remedies provisions expressly provided in the Agreement shall apply even in the event of the fault, negligence (in whole or in part), strict liability or breach of contract of Matrix. The remedies provided in the Agreement are exclusive, except that the CLIENT shall in addition have the right to obtain specific performance and all other injunctive relief that may be available. Matrix disclaims, and the CLIENT waives, any implied warranties of merchantability or fitness for a particular purpose with respect to any equipment or other personal property procured by Matrix and provided to the CLIENT as part of any Services.

Section 15: PROJECT DELAYS

If Matrix is delayed at any time in performing the Services for any specific project or activity by an act, failure to act, or neglect of the CLIENT or the CLIENT'S employees or any third parties; by changes in the scope of work; by unforeseen circumstances including delays authorized by the CLIENT and agreed to by Matrix; by acts of force majeure including, without limitation, fires, floods, riots, and strikes; by delays caused by foreign or domestic governmental acts or regulations; or by any cause beyond the reasonable control of Matrix, then the time for completion of the Services shall be extended based upon the impact of the delay. Matrix shall receive an adequate compensation adjustment if the delays caused by any of the above result in changes, require additional services, or result in additional costs to Matrix.

Section 16: ASSIGNMENT

Matrix shall not assign the Agreement in whole or part except that Matrix may use the services of persons and entities not in its employ, when it is appropriate to do so. Such persons and entities include, but are not limited to, surveyors, specialized consultants, drilling contractors, and testing laboratories. Matrix's use of others for additional services shall not be unreasonably restricted by the CLIENT provided Matrix notifies the CLIENT in advance.

Section 17: THIRD PARTY EXCLUSION

The Agreement shall not create any rights or benefits to parties other than the CLIENT and Matrix, except such other rights as may be specifically called herein.

Section 18: SEVERABILITY

If any clause or section of the Agreement shall be deemed void or invalid, such a decision shall only apply to that particular section(s) and shall not render the rest of the Agreement invalid. The balance of the Agreement shall remain in force.

Section 19: TERMINATION

Matrix may terminate the Agreement upon five (5) days' notice if the CLIENT defaults in the payment for the Services or for any other material default by the CLIENT under the Agreement. The CLIENT or Matrix may terminate the Agreement upon fourteen (14) days' notice for any reason which may arise or for no reason. In the event of such termination of the Agreement for any reason which may arise or for no reason, the termination will become effective fourteen (14) calendar days after receipt of the termination notice. LIMITATION OF LIABILITY.

10. EXCEPT FOR WILLFUL VIOLATION OF THE AGREEMENT, IN NO EVENT WILL EITHER PARTY BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE AGREEMENT.

11.4 Force Majeure. Either party will be excused from a delay in performing, or failure to perform, its obligations under the Agreement to the extent such delay or failure is caused by the occurrence of any contingency beyond the reasonable control, and without any fault, of such party, which contingencies include but are not limited to acts of God, war, riot, power failures, fires, and floods.

11.5 Waiver. No waiver by either party of a breach of any provision hereof will be taken or held to be a waiver of any other breach of such provision or a waiver of the provision itself.

11.6 Severability. If any portion of this Agreement is held to be illegal or unenforceable, that portion shall be restated, eliminated or limited to the minimum extent necessary so that this Agreement shall reflect as nearly as possible the original intention of the parties and the remainder of this Agreement shall remain in full force and effect.

11.7 Governing Law. The Agreement and any dispute relating thereto shall be governed by and construed in accordance with the laws of the State of New Jersey except as to matters preempted by Federal law, and in that event as to the specific matters that are preempted by Federal law, the Agreement and any dispute relating thereto shall be governed and construed in accordance with Federal law.

Introduction: March 3, 2020

Adopted: April 14, 2020

Legislative History

The West Orange Township Council has found value in having a Council liaison designated and appointed to some of the various advisory boards, committees and commissions operating within the Township, providing lines of communication between the citizen volunteers, Township professionals, interested residents participating on and with those bodies and the Township's governing body. Through Council liaisons the Council as a whole is better able to educate itself about and follow the work of such bodies through regular reporting by liaisons to the Council as a whole. The enabling statute for Historic Preservation Commissions in the State of New Jersey has specific and detailed requirements regarding voting membership which precludes a Council liaison from being a voting member of a Historic Preservation Commission and this Ordinance provides that the Council liaison shall be an ex officio non-voting member of the Commission, appointed and designated by vote of the Council at its annual re-organization meeting as has been the custom with respect to other Council liaison positions.

Legislative History

The Ordinance, which amends the Traffic Regulations of the Township, designates the two (2) intersections of Walker Road and Burnett Terrace as Multi Way Stops intersections with Stop signs on all intersecting streets. Due to the volume of traffic through these intersections, turning movements at each intersection and limited sight distance at the easterly intersection, the Township's Engineering Division determined that traffic needed to be regulated on all approaches to these intersections for the safe movement of traffic through them. Currently the intersections are regulated by Stop Signs but they are not Multi Way Stops Intersections.

LEGISLATIVE HISTORY

This Ordinance is in response to requests from handicapped residents who reside near the Watchung Avenue and Ridge Avenue intersection, opposite 4 Shelley Terrace and at 115 Watson Avenue, 67 Harrison Avenue, 221 Watchung Avenue, and 16 Dean Street.

By adopting this Ordinance, the Township will establish two handicapped parking stalls adjacent to the Watchung Avenue and Ridge Avenue intersection and one handicapped parking stall opposite 4 Shelley Terrace for non-exclusive use of residents who cannot have a dedicated stall in front of their homes. Such parking stalls are permissible under the laws of New Jersey, and they are designated Handicapped Parking Places.

AN ORDINANCE AMENDING CHAPTER 25, SECTIONS 3.2 and 26.13 OF THE REVISED GENERAL ORDINANCES OF THE TOWNSHIP OF WEST ORANGE (Zone Map and Conservation District)

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE TOWNSHIP OF WEST ORANGE, NEW JERSEY that Chapter 25 of the Revised General Ordinances of the Township of West Orange be and are hereby amended as follows:

I. PURPOSE

The purpose of this Ordinance is to revise the zoning designation of certain township owned lots in the “Upper Mellon Avenue” section of the Township of West Orange (the “Township”) from an R-2 zoning designation and change them to an R-5 zoning designation and to remove the properties from conservation district. The change in zoning designation and removal from the conservation district is part of an overall plan to sell the properties pursuant to the Local Lands and Buildings Law so that the lots can be developed as single-family homes. Currently, the R-2 designation prevents any development of these properties, because the lots are too small to meet the 40,000 square foot requirement for construction of a one family home. The change in zoning designation would lower the square footage requirement to 10,000 square feet and the removal of these properties from the conservation district would allow for these lots to be developed as single-family homes. The change in zoning designation of these properties will also conform the zoning designations in a manner that is consistent with the surrounding properties and the residential homes built upon those surrounding properties.

II. CHAPTER 25, SECTION 3.2 SHALL BE AND HEREBY IS AMENDED AND SUPPLEMENTED TO INCORPORATE THE FOLLOWING:

25-3.2 Zone Map and Table of District Regulations.

- a. District locations and boundaries are established as shown and delineated on the “Zoning District Map of the Township of West Orange,” referred to as “Zoning District Map.” The map is hereby declared to be part hereof and the Zone Districts so bounded and defined are hereby established. The bulk and use regulations for each district are established in the Table of District Regulations which may be found at the end of this chapter. The Zoning District Map may be found on file in the Township Offices.
 1. The "Zone District Map" of the Township of West Orange is hereby amended to remove the following lands from an R-2 District and place them in an R-5 District:
 - (a) Block 175.07, Lot 7.
 - (b) Block 175.07, Lot 9.
 - (c) Block 175.07, Lot 11
 - (d) Block 175.08, Lot 7.
 - (e) Block 175.08, Lot 8.
 - (f) Block 175.14, Lot 1.

- (g) Block 175.14, Lot 2.
 - (h) Block 175.15, Lot 1.
 - (i) Block 175.15, Lot 2.
 - (j) Block 175.15, Lot 3.
- b. District boundary lines follow the center lines of streets and similar rights-of-way, or lot lines, unless a specified dimension on the Zoning Map indicates otherwise.
 - c. In case of uncertainty as to the true location of a district boundary line, the determination shall be made by the Zoning Officer. An appeal may also be taken to the Zoning Board provided in N.J.S.A. 40:55D-70.
 - d. Any use not specifically permitted in a zoning district established by this chapter is hereby expressly prohibited from that district.

III. CHAPTER 25, SECTION 26.13 SHALL BE AND HEREBY IS AMENDED AND SUPPLEMENTED TO INCORPORATE THE FOLLOWING:

25-26.13 Schedule I.

Legislative History

The purpose of this Ordinance is to adopt one of the recommendations from the 2019 Master Plan update and revise the zoning designation of certain township owned lots in the “Upper Mellon Avenue” section of the Township of West Orange (the “Township”) from an R-2 zoning designation and change them to an R-5 zoning designation and to remove the properties from conservation district. The change in zoning designation and removal from the conservation district is part of an overall plan to sell the properties pursuant to the Local Lands and Buildings Law so that they lots can be developed as single-family homes. Currently, the R-2 designation prevents any development of these properties, because the lots are too small to meet the 40,000 square foot requirement for construction of a one family home. The change in zoning designation would lower the square footage requirement to 10,000 square feet and the removal of these properties from the conservation district would allow for these lots to be developed as single-family homes. The change in zoning designation of these properties will also conform the zoning designations in a manner that is consistent with the surrounding properties and the residential homes built upon those surrounding properties.

RESOLUTION

WHEREAS, Montclair Golf Club is the holder of Plenary Retail Consumption License No. 0722-33-053-001; and

WHEREAS, DPG Edison LL LLC c/o Prism Partners, 200 Broadacres Drive, Suite 180, Bloomfield, NJ 07003 has by and through its Manager, Eugene R. Diaz, made application for a person to person transfer for the above-mentioned license to be held in pocket and inactive status once transferred and pending further transfer; and

WHEREAS, the applicant is ultimately owned by a Hedge Fund with hundreds of stockholders, making the usual thorough and detailed ABC investigation by the West Orange Township Police Department extremely time-consuming and impractical or impossible to complete in timely fashion; and

WHEREAS, the applicant does not intend to use the license itself, but rather intends to hold it as inactive and in pocket status, transferring it within a reasonable period of time to a yet to be determined tenant of the applicant's redevelopment project, the Edison Lofts Apartment building and Retail Shoppes on Main Street in West Orange, which tenant would then operate an ABC establishment under the license; and

WHEREAS, the Township Police Department has consulted with the Special Deputy Attorney General for the State of New Jersey acting as the Bureau Chief of the Criminal Investigations Division of the NJ Division of Alcoholic Beverage Control, and all agreeing that subject to West Orange ABC Board approval, the special provisions of ABC Bulletin 2465, involving multiple transfer of a license by a large secured creditor corporation from a trustee in bankruptcy, the creditor wishing to transfer the license to itself and then immediately to a third party, a specific officer designated to apply for the transfer of the license on behalf of the corporation, are sufficiently analogous to be applied here; and

WHEREAS, the Manager has been investigated by the Township Police Department with no finding of impediments to an interest in an alcoholic beverage license, but requiring certain restrictions on the License in view of the special circumstances associated with it, all as set forth below in the Resolving clauses; and

WHEREAS, due notice of the proposed transfer was published in the West Orange Chronicle on February 20, 2020 and February 27, 2020 and appropriate fees have been paid by the applicant and tax clearance received from the State of New Jersey; and

WHEREAS, a public hearing was conducted on April 14, 2020, and no one appeared in opposition thereto; and

WHEREAS, Joseph Oriolo, Esq., Greenbaum Rowe Smith and Davis, LLP, attorney for the transferee presented the application to the ABC Board on April 14, 2020, and was available to answer any questions posed at that time;

NOW THEREFORE BE IT RESOLVED that the Township Council of the Township of West Orange, sitting as the Township's ABC Board, hereby authorizes and approves the person to person transfer of Plenary Retail Consumption License No. 0722-33-053-001 from Montclair Golf Club to DPG Edison LL, LLC c/o Prism Partners, 200 Broadacres Drive, Suite 180, Bloomfield, NJ 07003, subject to the following restrictions:

1. The applicant-licensee shall only be permitted to own the license in an INACTIVE and pocket status and not permitted to operate any ABC licensed business under the license;
2. The intent of the applicant-licensee and only circumstances under which ABC Bulletin 2465 can apply to permit this person to person transfer is for the license to be held in an in-pocket inactive status pending sale to a tenant of the Edison Lofts redevelopment project or to a non-tenant buyer, if necessary within a reasonable period of time not to exceed twenty four (24) months;
3. The applicant-licensee, upon sale and transfer of the license to the ultimate licensee, may NOT impose any restrictions on the new licensee with respect to location or future sale, the license being an asset of the ultimate licensee and not of the applicant;
4. The applicant-licensee must submit an affidavit to the Township of West Orange ABC Board indicating that to the best of his knowledge the officers, directors, members and investors in DPG Edison LL, LLC, if any investigation were required, would qualify to hold a license under the Alcoholic Beverage Control Act of New Jersey and that to the best of his knowledge there are no other reasons why DPG Edison LL, LLC, or any entity or individual within its entity chain would be disqualified from holding a NJ ABC license.
