**WHEREAS**, the Township of West Orange (the “Township”) is committed to increasing the number of women and minorities in the Township’s Police Department (“WOPD”); and

**WHEREAS**, the State of New Jersey has establish an Alternate Route Program (“ARP”) designed to give individuals interested in becoming police officers, the opportunity to attend a certified police training academy at their own expense, prior to being hired by a police, sheriff, or campus police department in accordance with the provisions of N.J.S.A. 52:17B-69.1; and

**WHEREAS**, the ARP does not guarantee a candidate a position in law enforcement, it is often utilized by municipalities to hire additional officers; and

**WHEREAS**, the New Jersey Civil Service Commission has imposed restrictions on the ARP whereby Civil Service Communities, like the Township, are not permitted to hire from the Alternate Route Training Program; and

**WHEREAS**, the Township would benefit greatly from hiring graduates of ARP, especially as a way to increase the number of minorities and women within its department; and

**WHEREAS**, the Mayor requests that the Township Council urge the State of New Jersey to permit all civil service communities to hire directly from the Alternate Route Program;

**NOW THEREFORE, BE IT RESOLVED BY THE TOWNSHIP COUNCIL OF THE TOWNSHIP OF WEST ORANGE**, that the Township hereby urges the Governor of the State of New Jersey to permit all civil service communities to hire directly from the Alternate Route Program; and

**RESOLVED**, that a copy of this Resolution shall be forwarded to the Governor of New Jersey, New Jersey Senate President, New Jersey Assembly Speaker, and all Legislators who represent the Township; and

RE: **REQUEST FOR PROPOSALS**  
**PROFESSIONAL DESIGN SERVICES**  
**ARCHITECTURAL AND ENGINEERING SERVICES**  
**FIRE STATIONS NO. 1, NO. 3, NO. 4 AND NO. 5**

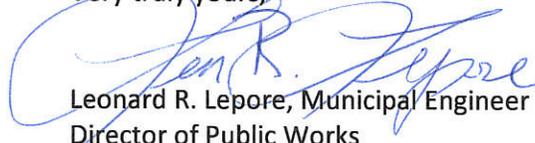

Mayor Parisi, Council President Casalino and Council Members:

By letter dated February 3, 2020, I requested proposals from five architectural firms to provide Professional Design Services for architectural and mechanical, electrical and plumbing improvements for Fire Station No. 1, Fire Station No. 3, Fire Station No. 4 and Fire Station No. 5. Those firms responded to the Township's Request for Qualifications for calendar year 2020. Of the five only two submitted a proposal: Herbst Musciano of Boonton, New Jersey and Arcari + Iovino of Little Ferry, New Jersey. Netta Architects of Mountainside, New Jersey and PS&S of Warren, New Jersey responded that they did not have the capability to perform the work at this time. Settembrino Architects of Red Bank, New Jersey did not respond. A copy of the RFP and the responses of Herbst Musciano and Arcari + Iovino are enclosed.

Based on the review of the proposals, both firms were responsive to the proposal. However, the fee of Herbst Musciano is lower than that of Arcari + Iovino: \$93,653.00 and \$103,238.00 respectively. At the time of construction there will additional professional services required for asbestos abatement and removal in all but Fire House No. 5. Consequently, I recommend a Professional Services Contract be awarded to the firm of Herbst Musciano, 611 Main Street, Second Floor, Boonton, New Jersey 07005 to provide professional architectural and engineering services in accordance with their proposal dated March 2, 2020 for a fee not to exceed \$93,653.00. They provided architectural services for West Orange on other projects, and their work is very good. A Resolution of Award for a Professional Services Contract is attached.

If you have any questions on the Request for Proposals or the Proposal of Herbst Musciano, please contact me.

Very truly yours,

**RE: PROPOSAL FOR ARCHITECTURAL, MECHANICAL, ELECTRICAL, & PLUMBING DESIGN SERVICES AT FIRE STATIONS NO. 1, NO. 3, NO. 4, AND NO. 5**

Dear Mr. Lepore:

We are pleased to submit our proposal for professional architectural and engineering services for improvements to four West Orange Fire Stations. As we understand, the Township intends to implement interior and exterior improvements as outlined in the February 3, 2020 document issued by your office.

We have read through each of the Needs Assessments and believe that we have a good understanding of the work. We currently are doing similar renovations to Teaneck's Fire Station #4 and have significant experience with the work proposed in your project.

We have prepared a list of services generally applicable to all four buildings. As well, we have secured quotes for engineering services as needed to address the improvements outlined. A fee schedule by discipline and by phase for each project is also attached.

#### **Company Information**

Arcari + Iovino Architects were awarded the New Jersey - American Institute of Architects **Firm of the Year** for 2011. Our firm has performed numerous municipal projects throughout our 28 years in business and we understand the typical requirements of these types of projects. Our variety of experience with projects of all size and types enables us to understand and meet your goals and needs. The owners of the professional corporation are Mr. Edward Arcari and me, Mr. Anthony Iovino. Along with our Associate, Mr. Joseph Frangiosa, we take a hands-on approach to design and our client's needs. This approach leads to a trusting and repetitive clientele.

### Staff Information

We maintain a staff of 14 including 6 licensed professionals, two of which are LEED accredited. Our staff is assigned to a client's project early on and typically remain with that project throughout its course. That consistency benefits both our team and the client, ensuring that the design intent and the needs of the client are carried through.

### Value

Our company services have always been perceived as a good value by our clients. We understand the effort required for public projects and craft our fee to reflect the appropriate level of time and services for each project. The best clients are those who have been involved with improvement projects and recognize the role and value an architect has with the overall project, from design through to completion. We believe you will find that value with our firm.

Enclosed you will find our expected scope of services along with our proposed fee. If you have any questions or if you require additional information, please let us know. We hope to have the opportunity to provide these services to the Township and look forward to hearing from you.

Sincerely,

A handwritten signature in black ink, appearing to read 'A. Iovino', with a small horizontal line to the right of the signature.

### Construction Documents Phase

The goal of this phase is to resolve significant design issues such as the technical aspects of materials and building systems. Mechanical, electrical, plumbing, fire protection and structural design concepts are investigated and integrated into the design. Potential cost savings in construction materials, systems, and energy efficiencies are considered and implemented.

The Construction Document phase results in a final set of drawings and specifications which set forth in detail the requirements for the building's construction. Drawings are the illustrative component of construction documents while the specifications are written requirements pertaining to building materials, equipment and construction systems that outline the project standards to be achieved. Construction Documents allow for the bidding, permits, and the construction process.

- Architects and Engineers to visit site to photograph and confirm conditions
- Review of relevant building codes
- Confer with consulting engineers for advice on building systems and space required for same
- Begin research on materials, equipment, fixtures and building systems
- If required, the mechanical and electrical engineers will contact utility companies and public authorities for all services and initiate approval process. They will also investigate and report on their review of all applicable local, public, and utility regulations.
- Prepare preliminary technical drawings to include plans, elevations, sections, and schedules
- Assemble preliminary lighting fixture cut sheets
- Assemble interior and exterior finish materials and conduct review meeting with Owner
- Conduct group coordination meetings with consultants as needed
- Select final finish materials for interior and exterior of building
- Offer an opinion of the likely construction value (not a detailed estimate)
- Submit progress documents to Owner for review and records
- Coordinate electrical, mechanical, plumbing, fire protection and structural engineering designs
- Prepare the bidding process front-end documents for early attorney review
- Finalize the construction drawings
- Preparation of the technical specifications
- Obtain Owner instructions on insurance, bonds, construction contract and bidding procedures
- Conduct a review meeting with the Building Department prior to bid
- Incorporate any Building Department comments
- Assemble final drawings, specifications, and project manual
- Submit Drawings and Project Manual to the Owner for review and approval

### Bidding Phase

During the bidding phase we would assemble the bid documents and assist with the distribution of sets to bidders. We will answer their questions during the process and attend the bid opening. We would help you evaluate the bids and would prepare a summary letter of our findings. This period includes the time to secure a contract from the awarded bidder.

- Assist with form of legal ad
- Prepare and distribute bid documents (We typically distribute CD's free of charge)
- Conduct a pre-bid conference
- Issue Addenda to bids if necessary
- Attend bid opening
- Assist the Township in the receipt, tabulation, and analysis of bids
- Review bids for responsiveness
- Assist the Township in the process of acceptance or rejection of bids
- Assist the Township's legal counsel in preparation of construction contracts
- Assist the Township in preparing and sending the Contractor a Notice-to-Proceed

### Construction Administration Phase

The Construction Administration phase is when the architect makes observations to determine that the construction is conforming to the drawings and specifications. Administrative tasks occur at the architect's and consultant's offices throughout the phase whereas they review submittals, respond to contractor questions, and help resolve issues as they arise during construction. Records are maintained of all significant correspondence, meetings, and submittals. At the end of construction, we perform a final review 'punch list' and gather the contractor's close-out documents.

We are assuming a **3-month** CA period for all the fire stations except FS#5 which is **1 month**.

- Prepare signed and sealed drawings for the permit application
- Conduct a pre-construction meeting and issue minutes
- Develop and implement a system of distribution for project correspondence and submittals
- Create construction contract administration file logs which may include:
  - Correspondence and meeting reports
  - Field reports
  - Request for Proposals (RFP's)
  - Request for Information (RFI's)
  - Change Orders
  - Construction Change Directives (CCD's)
  - Applications for payment
  - Submittals
- Prior to the first application for payment, receive and review Contractor's schedule of values
- Obtain and review Contractor's submittal schedule (shop drawings, product data, etc.)
- Review periodic applications for payment by contractor
- Establish site observation and project meeting schedules
- Architects and engineers to visit site for meetings and observations (typically bi-weekly)
- Keep township informed on the progress of the work through field reports for each site visit
- Obtain and review the Contractor's updated progress schedule and advise the township of potential revisions to anticipated occupancy date
- Receive submittals, review them, take appropriate action, and return to the Contractor
- Review Contractor's proposed costs for any changes
- Receive Contractor's notification of substantial completion and punch list
- Visit the project to confirm substantial completion
- Prepare a Certificate of Substantial Completion
- Review the close-out submittals for completeness
- Review the Contractor's application for final payment, including required attachments such as waivers of lien and consent of surety documentation
- Project closeout and final site visit
- Issue a final certificate of payment

# Fee Proposal

## Fee Proposal

The basic services for the project include the following professional services:

1. Architecture
2. Interior Design for room finishes (excludes furniture and equipment specification)
3. Structural Engineering (limited to lintel replacements)
4. Mechanical Engineering
5. Electrical Engineering
6. Plumbing Engineering

Our fee for the basic Architectural and Engineering Services is as follows:

FEE PER DISCIPLINE					
	Omdex (MEP)	A+I Archs	Structural	Printing	Total
fire station 1	\$15,500	\$16,990	\$1,500	\$756	\$34,746

**FIRE STATION NO. 3, 93 RIDGEWAY AVENUE**  
**FIRE STATION NO. 4, 280 PLEASANT VALLEY WAY**  
**FIRE STATION NO. 5, 25 MT. PLEASANT PLACE**

Dear Mr. Musciano:

The Township of West Orange requests proposals from professional firms capable of providing architectural, mechanical, electrical and plumbing design services for improvements to four West Orange Fire Stations. Those stations are Fire Station No. 1, 415 Valley Road; Fire Station No. 3, 93 Ridgeway Avenue; Fire Station No. 4, 280 Pleasant Valley Way and Fire Station No. 5, 25 Mt. Pleasant Place. Attached please find an outline of the minimum required improvements at each Fire Station. Your services for each Fire Station shall be a separate proposal. The priority order for the Township is Station No. 1, Station No. 3, Station No. 4 and Station No. 5. Although you will be submitting separate proposals if there are monetary economies that will accrue to the Township by awarding multiple professional service contracts to your firm, please provide that information. Your proposal shall include professional services to prepare design plans, specifications and bid documents; construction cost estimates; bidding period services including bid analysis, construction inspection and contract management and administration. The latter will include approval of shop drawings and equipment details, payment review and payment approval. It also includes periodic inspection and attendance at project meetings.

The improvements were developed from a facility assessment of the Fire Stations performed in 2015 by the architectural firm Parette-Somjen of Rockaway, New Jersey. Copies of the reports for the four Fire Stations are attached.

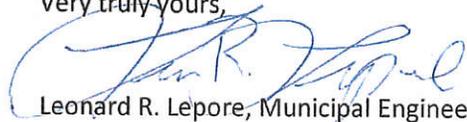

Also an Asbestos Management Plan was developed for Fire Station No. 1, Fire Station No. 3 and Fire Station No. 4. Copies of those reports are attached. Asbestos abatement shall be considered when

designing for the outlined improvements. Fire Station No. 5 was renovated in 1997 and does not have asbestos containing materials.

The Proposals are due by Monday, March 3, 2020 and they shall be submitted to Leonard R. Lepore, P.E., Municipal Engineer, Director of Public Works, 25 Lakeside Avenue, West Orange, New Jersey 07052. The fee for both the design and bid phase, including construction cost estimates, and the construction inspection management and administration phase shall be a not to exceed lump sum price. The former shall also include 20 sets of plans, specifications and bid documents.

To arrange to inspect each facility please contact Assistant Director Nick Salese at [nsalese@westorange.org](mailto:nsalese@westorange.org) or on his cell (973) 725-7456 or DPW Supervisor Lou Reynolds at [Ireynolds@westorange.org](mailto:Ireynolds@westorange.org) or (973) 725-8774.

Very truly yours,

**BOND ORDINANCE PROVIDING FOR THE LOCAL UNIT'S ALLOCABLE SHARE OF THE FLOOD MITIGATION FACILITIES PROJECT OF THE JOINT MEETING OF ESSEX AND UNION COUNTIES, BY AND IN THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY (THE "LOCAL UNIT"); APPROPRIATING \$3,170,000 THEREFOR AND AUTHORIZING THE ISSUANCE OF \$3,170,000 BONDS OR NOTES TO FINANCE THE COST THEREOF**

BE IT ORDAINED AND ENACTED BY THE GOVERNING BODY OF THE TOWNSHIP OF WEST ORANGE, IN THE COUNTY OF ESSEX, STATE OF NEW JERSEY (not less than two-thirds of all the members thereof affirmatively concurring), AS FOLLOWS:

SECTION 1. The improvements described in Section 3 of this bond ordinance are hereby authorized to be undertaken by the Joint Meeting of Essex and Union Counties (the "Joint Meeting") on behalf of the Township of West Orange, in the County of Essex, State of New Jersey (the "Local Unit") as general improvements. For the said improvements stated in Section 3, there is hereby appropriated the aggregate sum of \$3,170,000. Pursuant to the provisions of N.J.S.A. 40A:2-11(c) of the Local Bond Law, N.J.S.A. 40A:2-1 et seq., as amended and supplemented (the "Local Bond Law"), no down payment is required as this bond ordinance authorizes obligations for environmental infrastructure projects which are funded by loans from the New Jersey Infrastructure Bank (the "I-Bank") and the State of New Jersey, acting by or through the Department of Environmental Protection.

SECTION 2. For the financing of said improvements or purposes described in Section 3 hereof and to meet the \$3,170,000 appropriation, negotiable

bonds of the Local Unit are hereby authorized to be issued in the principal amount of \$3,170,000 pursuant to, and within all limitations prescribed by, the Local Bond Law. In anticipation of the issuance of said bonds and to temporarily finance said improvements or purposes, negotiable notes of the Local Unit in a principal amount not exceeding \$3,170,000 are hereby authorized to be issued pursuant to, and within the limitations prescribed by, said Local Bond Law.

SECTION 3. The improvements hereby authorized and purposes for the financing of which said debt obligations are to be issued are for the Local Unit's allocable share of capital improvement projects being undertaken by the Joint Meeting, including, as applicable, but not limited to, (a) Phase I of the Flood Mitigation Facilities Project consisting of the construction of an Effluent Pumping Station, which will be connected to the existing twin outfall channels to the Arthur Kill, and (b) Phase II of the Flood Mitigation Facilities Project consisting of upgrades to the Co-Generation Facility, which upgrades include, but are not limited to, as applicable, the installation of two (2) additional co-generation engines in the existing Co-Generation Facility, the installation of electrical and instrumentation equipment for the new generator engines, integration of the new engines into the existing Co-Generation Facility, connection of the Biosolids Facilities to the Co-Generation electrical transmission lines, and upgrades to the substations at the Biosolids Facilities.

a. All improvements shall include, as applicable, all work, materials, equipment, engineering services and design, architectural services and designs, surveying, environmental consulting work, environmental remediation, preparation of plans and specifications, governmental permits, bid documents, conducting

and preparation of reports, plans, analysis, and studies, equipment rental, labor and appurtenances necessary therefore or incidental thereto.

b. The aggregate estimated maximum amount of bonds or notes to be issued for said improvements or purposes is \$3,170,000.

c. The aggregate estimated cost of said improvements or purposes is \$3,170,000.

SECTION 4. In the event the United States of America, the State of New Jersey, and/or the County of Essex make a loan, contribution or grant-in-aid to the Local Unit for the improvements authorized hereby and the same shall be received by the Local Unit prior to the issuance of the bonds or notes authorized in Section 2 hereof, then the amount of such bonds or notes to be issued shall be reduced by the amount so received from the United States of America, the State of New Jersey, and/or the County of Essex. In the event, however, that any amount so loaned, contributed or granted by the United States of America, the State of New Jersey, and/or the County of Essex shall be received by the Local Unit after the issuance of the bonds or notes authorized in Section 2 hereof, then such funds shall be applied to the payment of the bonds or notes so issued and shall be used for no other purpose. This Section 4 shall not apply however, with respect to any contribution or grant in aid received by the Local Unit as a result of using such funds from this bond ordinance as "matching local funds" to receive such contribution or grant in aid.

SECTION 5. All bond anticipation notes issued hereunder shall mature at such times as may be determined by the Chief Financial Officer of the Local Unit, provided that no bond anticipation note shall mature later than one (1) year from its

date, unless such bond anticipation notes are permitted to mature at such later date in accordance with the provisions of the New Jersey Infrastructure Trust Act, N.J.S.A. 58:11B-1 ("NJIT Act"). The bond anticipation notes shall bear interest at such rate or rates and be in such form as may be determined by the Chief Financial Officer. The Chief Financial Officer of the Local Unit shall determine all matters in connection with the bond anticipation notes issued pursuant to this bond ordinance, and the signature of the Chief Financial Officer upon the bond anticipation notes shall be conclusive evidence as to all such determinations. All bond anticipation notes issued hereunder may be renewed from time to time in accordance with the provisions of Section 8.1 of the Local Bond Law and, as applicable, the provisions of the NJIT Act. The Chief Financial Officer is hereby authorized to sell part or all of the bond anticipation notes from time to time at public or private sale and to deliver them to the purchaser thereof upon receipt of payment of the purchase price and accrued interest thereon from their dates to the date of delivery thereof. The Chief Financial officer is directed to report in writing to the governing body at the meeting next succeeding the date when any sale or delivery of the bond anticipation notes pursuant to this bond ordinance is made. Such report must include the principal amount, the description, the interest rate, and the maturity schedule of the bond anticipation notes so sold, the price obtained and the name of the purchaser.

SECTION 6. The Local Unit hereby certifies that it has adopted a capital budget or a temporary capital budget, as applicable. The capital or temporary capital budget of the Local Unit is hereby amended to conform with the provisions of this bond ordinance to the extent of any inconsistency herewith. To the extent that the purposes

authorized herein are inconsistent with the adopted capital or temporary capital budget, a revised capital or temporary capital budget has been filed with the Division of Local Government Services.

SECTION 7. The following additional matters are hereby determined, declared, recited and stated:

a. The purposes described in Section 3 of this bond ordinance are not current expenses and are improvements which the Local Unit may lawfully undertake as general improvements, and no part of the cost thereof has been or shall be specially assessed on property specially benefited thereby.

b. The average period of usefulness of said improvements or purposes within the limitations of said Local Bond Law, according to the reasonable life thereof computed from the date of the said bonds authorized by this bond ordinance, is 30 years.

c. The supplemental debt statement required by the Local Bond Law has been duly made and filed in the Office of the Clerk of the Local Unit and a complete executed duplicate thereof has been filed in the Office of the Director of the Division of Local Government Services within the Department of Community Affairs of the State of New Jersey, and such statement shows that the gross debt of the Local Unit, as defined in the Local Bond Law, is increased by the authorization of the bonds and notes provided for in this bond ordinance by \$3,170,000 and the said obligations authorized by this bond ordinance will be within all debt limitations prescribed by said Local Bond Law.

d. An aggregate amount not exceeding \$816,392 for items of

expense listed in and permitted under section 20 of the Local Bond Law is included in the estimated cost indicated herein for the improvements hereinbefore described.

[e. This bond ordinance authorizes obligations of the Local Unit solely for purposes described in N.J.S.A. 40A:2-7(h). The obligations authorized herein are to be issued for purposes that are deemed to be self-liquidating pursuant to N.J.S.A. 40A:2-47(a) and are deductible from gross debt pursuant to N.J.S.A. 40A:2-44(c).]

[e.][f.] In accordance with N.J.S.A. 40:63-134, bonds authorized and issued by the Local Unit to finance improvements or works for the Joint Meeting shall not be taken to be included within or governed by any limitation fixed by law to the amount of bonds authorized to be issued by the Local Unit.

SECTION 8. The full faith and credit of the Local Unit are hereby pledged to the punctual payment of the principal of and the interest on the debt obligations authorized by this bond ordinance. The debt obligations shall be direct, unlimited obligations of the Local Unit, and the Local Unit shall be obligated to levy *ad valorem* taxes upon all the taxable property located within the Local Unit for the payment of the principal of and the interest thereon without limitation as to rate or amount.

SECTION 9. The Local Unit reasonably expects to reimburse any expenditures toward the costs of the improvements or purposes described in Section 3 hereof and paid prior to the issuance of any bonds or notes authorized by this bond ordinance with the proceeds of such bonds or notes. This Section 9 is intended to be and hereby is a declaration of the Local Unit's official intent to reimburse any expenditure toward the costs of the improvements or purposes described in Section 3 hereof to be incurred and paid prior to the issuance of bonds or notes authorized herein

in accordance with Treasury Regulations Section 150-2.

SECTION 10. The Local Unit covenants to maintain the exclusion from gross income under section 103(a) of the Internal Revenue Code of 1986, as amended, of the interest on all bonds and notes issued under this ordinance.

SECTION 11. Upon adoption hereof, the Clerk of the Local Unit shall forward certified copies of this bond ordinance to Everett M. Johnson, Esq., Wilentz, Goldman & Spitzer, P.A., bond counsel to the Joint Meeting of Essex and Union Counties, and Richard T. Nolan, Esq., McCarter & English, LLP, bond counsel to the I-Bank.

SECTION 12. This bond ordinance shall take effect twenty (20) days after the first publication hereof after final adoption, as provided by the Local Bond Law.

**AN ORDINANCE RELEASING, EXTINGUISHING AND VACATING THE RIGHTS OF A 25' WIDE UTILITY EASEMENT LOCATED IN COLONIAL WOODS NORTH MAJOR SUBDIVISION SHOWN ON FILED MAP #4518 FILED IN THE ESSEX COUNTY REGISTERS OFFICE ON JULY 30, 2007 RUNNING ALONG THE REAR OF LOTS 12.23, 12.24, 12.25, 12.26 AND 12.27 IN BLOCK 173, TOWNSHIP OF WEST ORANGE, COUNTY OF ESSEX AND STATE OF NEW JERSEY**

An ordinance releasing, extinguishing and vacating the 25-foot-wide-utility easement located along the rear of lots 12.23, 12.24, 12.25, 12.26 and 12.27 in Block 173 on the Tax Map of the Township of West Orange, Essex County, N.J., which became of record as part of the "Colonial Woods North Major Subdivision Plat," dated January 18, 2007 and filed in the Essex County Registers Office on July 30, 2007 as Map 4518 (the "Property").

**WHEREAS**, RNC Developers, Inc. ("RNC") is the owner of property on the Colonial Woods Drive extension in the Township of West Orange ("Township"); and

**WHEREAS**, there exists a 25-foot-wide Utility Easement presently encumbering the rear of Lots 12.23, 12.24, 12.25, 12.25 and 12.27 in Block 173 on the Colonial Woods Drive extension ("Easement"); and

**WHEREAS**, the purpose of the Easement was to contain certain sanitary sewer lines and storm drain lines in that Easement area; and

**WHEREAS**, the aforementioned utilities have been eliminated with modifications to the utilities within the street right-of-way; and

**WHEREAS**, the Township's Engineer has determined that the Easement is of no use to the Township; and

**WHEREAS**, it has been determined by the Township Council, after due investigation and consideration as follows:

- (1) that the 25-foot-wide utility easement described hereinbelow is no longer necessary because the utilities were relocated into the street right-of-way; and
- (2) that it is in the best interest of the general public and the Township of West Orange that any public easements, right and interest in and to same shall be vacated, released and extinguished;

**NOW, THEREFORE, BE IT HEREBY ORDERED** by the Township Council of the Township of West Orange, County of Essex, and State of New Jersey as follows:
