

NOT AN ACCOUNT HOLDER? WE STILL WANT TO KEEP YOU INFORMED

At New Jersey American Water, we partner with CodeRED, an emergency notification system. These notifications help keep community members who are not New Jersey American Water account holders informed about water-related emergencies and events that impact service, like water main replacements, flushing, sewer main lining and planned projects.

NOT AN ACCOUNT HOLDER? NOT A PROBLEM

If you live, rent, work or spend time in a community served by New Jersey American Water, but are not a direct customer of ours, you can still sign up for CodeRED to receive water-related alerts.

- **Text:** WATER to 99411
- **Visit:** AWCodeRed.com (scan the QR code below)
- **Download:** CodeRED Mobile Alert App in the App Store or Google Play

You can create an account, which will allow you to select notification settings and edit your contact information, or enroll as a guest. If you download the app, it is geo-aware, meaning you'll only receive alerts that impact your specific location.

KEEPING COMMUNITIES INFORMED

This subscription service is for community members who are not New Jersey American Water customers but want to stay informed about water-related emergencies and events. For example:

- Commuters
- Students
- Renters
- Family members/visitors

Are you a New Jersey American Water account holder?

You can update your contact information and alert preferences in MyWater at amwater.com/mywater.
