### **West Orange Gregory Avenue Road Closure Advisory**

New Jersey American Water Company is alerting West Orange residents for the upcoming cleaning and lining of their 16-inch diameter water transmission main located on Gregory Avenue from Northfield Avenue south to Luddington Road at the South Orange border. This work will start on September 15, 2014 and it is expected to continue through the end of October, 2014. No disruption in water service is expected during this work.

The work will be conducted on weekdays between the hours of 9:00 am and 3:00 pm. During that time Gregory Avenue will be closed to thru traffic from Northfield Avenue in West Orange to South Orange Avenue in South Orange. No access will be allowed onto Gregory Avenue at Northfield Avenue, and Wyoming Avenue (Gregory Avenue extension in South Orange) will be closed in South Orange. Two detour routes for thru traffic will be established. The first will be along Northfield Avenue, Rollinson Street, South Valley Road, Ridgewood Avenue (South Orange) and South Orange Avenue (South Orange) to Wyoming Avenue. The second will be Northfield Avenue, Walker Road, South Valley Road, Ridgewood Avenue (South Orange) and South Orange Avenue (South Orange).

Residents along Gregory Avenue will have access to and egress from their homes. However, those residents must use one of the detour routes described above to access the nearest intersecting street to their home along Gregory Avenue. Egress from their home shall be in the same manner.

Residents who live in neighborhoods to the east and west of Gregory Avenue will also have access and egress to their homes during the construction period. Those residents will need to use major cross streets such as Walker Road, Forest Hill Road, Luddington Road and Mitchell Street / Gregory Place to and from the detour route to leave or enter their neighborhood.

Morning school bus schedules and morning access to Roosevelt Middle School, Hazel Elementary and Gregory Elementary will not be affected as the road closure and the work will not commence until 9:00 am. Specific plans for afternoon school bus routes and afternoon dismissals from Roosevelt, Hazel and Gregory Schools will be finalized with the Board of Education prior to the opening of School.

If residents have any specific questions about the water transmission project they may call Construction Inspector Rick Bace of New Jersey American Water Company, Monday

AN EQUAL OPPORTUNITY EMPLOYER
