

## **STEP 1: DOWNLOAD APP**

Search in Apple or Android store for  
“*Fleetmatics Reveal Manager Application*”

Download and install app

\*Make sure you download the correct Fleetmatics app  
(there are several)

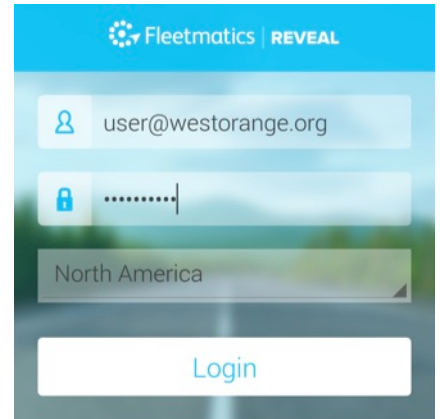

## **STEP 2: LOGIN**

At the main screen, Input Login Info

User Name: user@westorange.org

Password: westorange

## **STEP 3: LIVE MAP**

Select ‘Live Map’

## **STEP 3: SELECT JITNEY GROUP**

From the ‘Live Map’ screen, tap the tree icon and select ‘JITNEY SHUTTLE’ then tap ‘CONFIRM’

## **STEP 4: SELECT JITNEY SHUTTLE**

From the ‘Live Map’ screen, tap the list icon and select one or more Jitney shuttles from the list. Click ‘Show Map’ or ‘Done’ (depending on platform)

## **STEP 5: VIEW LIVE MAP**

You will now see the location of your selected busses. A green arrow indicates direction of travel. An orange pause indicates the vehicle has made a temporary stop (for loading, etc.).

A red dot indicates the vehicle has stopped. This may indicate waiting at the station or at the beginning of the route prior to starting a route run.

On occasion, you may see a bus number on screen instead of a route number for an individual bus. This generally means that the route bus has been replaced (e.g. for repairs). To change this bus number back to a route number, you will need to refresh the live map by clicking “Go Back Page” three (3) times to return to the first screen, press Live Map and continue as listed above for your phone (Apple or Android).
