West Orange Residents 55 Years and Older

The 2017 Senior Citizen Survey for the Township of West Orange was developed in conjunction with Montclair State University Center for Research and Evaluation on Education and Human Services and the Township of West Orange through a grant from the Partners for Health Foundation located in Montclair, NJ.

This survey is an anonymous needs assessment that gives residents 55 years and older the opportunity to comment on your community, tells us the way you prefer to receive information, gives insight into health, housing, transportation and quality of life issues. Beginning at age 55 also illustrates the perspective of future senior citizens not yet utilizing existing services.

Complete the survey at www.westorange.org/seniorsurvey. There are no right or wrong answers only your experiences and opinions.

You are encouraged to complete the survey online but for those completing the paper survey an envelope is provided that you may place the completed survey in and then submit it to the Health Department or other designated locations. Your answers will be entered into the computer with the other surveys completed online.

The survey will be available until October 31, 2017 then the survey answers and comments will be reviewed by Montclair State University for use in the Township's future planning.

For assistance completing the survey please contact Patricia Duffy 973-325-4105 Or Susan Iovino at 973-325-4131. Thank you for your participation.
