7 Glenwood Avenue  
East Orange, NJ 07017

## VETERANS SERVICES

Vocational Services  
Health and Wellness  
Health Care Case Management  
*Se habla español*

## Health Care Case Management • Wellness Sessions and Presentations • Health Screenings • Support Groups • Social Service Linkages

Available to veterans with referrals from the Department of Veteran Affairs (VA), Division of Vocational Rehabilitation Services (DVRs), or local One-Stop Centers for vocational rehabilitation services including:

- Evaluations & Assessments
- Trainings
- Employment Placement
- Case Management

## JVS Veterans Services

Evaluation, case management, counseling, job skills training, job development, career counseling, and placement and retention services.

### Case Management

Veterans are assigned a case manager who creates an individualized plan for job placement. JVS case management staff will coordinate with work readiness trainers, job developers, counselors, and placement specialists.

### Job Skills

Some veterans, depending on their situation may need assistance learning job seeking strategies, creating a resume, or identifying transferable skills. JVS staff will train veterans in social skills, computers, customer service, and conflict resolution.

### Customer Service / Computer Training

Computer skills and customer service, among other trainings, are available at JVS. We may provide these services in conjunction with healthcare case management and evaluation, job development, career counseling, and placement services.

## JVS Veterans Healthcare Case Management

Thanks to a grant from Healthcare Foundation of NJ, JVS is able to provide additional services addressing the health and wellness needs of veterans seeking employment and vocational services via its healthcare case management services. We can address healthcare, wellness, financial planning, housing, and other needs by partnering with other community agencies.
