

NOTICE OF HEIGHT DEMONSTRATION

On Saturday, March 28, 2020, beginning at approximately 10:00 a.m., a balloon height demonstration will occur with regard to a proposed development known as West Essex Highlands (“WEH”). The WEH Project is located off of Eagle Rock Avenue and Oval Road and to the south of Howell Drive; to the west of Pleasant Valley Way; on the Verona and Essex Fells borders; and north of the existing West Essex Highlands Condominium community. The height demonstration is designed to show the potential height of the WEH Project. Approximately twenty (20) inflatable helium balloons will be lifted on the corners of the proposed structures. The proposed Project will consist of 496 units in four (4) buildings.

If there is wind or other inclement weather, the balloon height demonstration will be postponed until Sunday, March 29, 2020.

The proposed project will be discussed by the Township Council at its April 14, 2020 meeting.

If you have any questions, please contact John McDonough, WEH Planner at jmcdonoughpp@gmail.com.
