#### KEY GUIDELINES FOR SAFE STORAGE INCLUDE:

- **Unloaded firearms should be stored in a locked cabinet, safe, gun vault or storage case.** The storage location should be inaccessible to children.
- **Gun locking devices render firearms inoperable** and can be used in addition to locked storage. If firearms are disassembled, parts should be securely stored in separate locations.
- **Ammunition should be stored in a locked location separate from firearms.**
- **Thoroughly double check firearms to confirm that they are unloaded** when you remove them from storage. Accidents could occur if a family member borrows a gun and returns it to storage while still loaded.
